*The model parts called out for F-21813 are a match for our decal orders.

Delicately there could be slight variations from one point manufacture to the next as well as one point batch from the next.

If you're an anal retentive as we are, you might want to use the procedure described below to minimize any slight mis-matches between their color and paint color!

Fig. 1

Decide Top Half
Use Bottom Half

STARFIGHTERS

Fig. 2

1. Cut the blue pieces at the dashed line as shown in Fig. 1. This decal can then be placed on the edge of the demarcation line of where the blue and white meet on your model.

2. Place the white Starfighters logo decal as shown in Fig. 2.

The above graphics can be used as patterns. They are the same size as the decals.

Rick "Comrade" Svetkoff

Rick's career in aviation began in 1971 flying air charter, corporate and commuter flights. 1976 found him opening new doors and flying A-10, carrier based attack fighters, for the United States Navy. After leaving the Navy in 1984, Rick joined Continental Airlines where he has flown as the captain of the MD-80 for the past 13 years. Rick adds to his 28 year, 17,599 hour flying career with his participation in the air show industry. For the past three years, he has been a part of the air show circuit and has portrayed his dream of ownership as an F-104 team. Rick is the owner and lead pilot for the Starfighters' F-104 team.

Tom "Sharkbait" Delashaw

Tom's illustrious career as a fighter pilot began more than forty years ago. One of only two active F-104 pilots to graduate from the United States Air Force Fighter Weapons School, also known as the USAF's "Top Gun", he served as a special projects pilot and flew a variety of high speed, classified performance projects. Tom set the unit speed record of 1,800 mph and the altitude record of 82,866 feet in the F-104. His nickname, "Sharkbait" is derived from the call sign of his F-104 squadron in Southeast Asia. His decorations include the Distinguished Flying Cross and air medals with clusters for combat. Air combat or "Dogfighting" has become one of Tom's favorite pastimes. He is a designated formation instructor for the Civilian Warbird community and an air combat instructor at Texas Air Aces in Houston, Texas. Tom has become a valued part of the Starfighters' F-104 team.

Twoobots' goal is to provide you with the most thoroughly researched decals that money can buy. We go beyond using traditional reference resources and many times speak with the actual aircrews and maintainers of our subject matter. Being modelers ourselves, we understand that there is no substitute for this painstaking research and we are proud to offer, what we feel, are the best decals on the market. If you have any subject matter that you feel should be the next Twoobots creation, let us know. We'll be happy to listen to any and all customer input.
