Make a 1/16" slice to allow red to wrap under Red spinner tip same as tiger lips Paint wheel hub gray add white ring

Curtiss topside colors were Brown (Dark Earth, Du Pont color 71-009 and Green, Du Pont 71-013 on top (which were the Curtiss equivalents of RAF Dark Earth and RAF Dark Green). The underside color was the Curtiss equivalent of RAF Light Gray (FS 36463).

Insignia same position lower right wing, White & Liles

SuperScale Decal No. MS481261

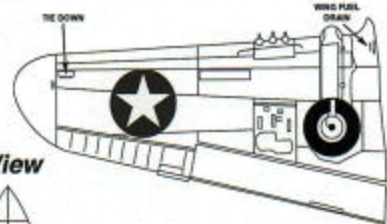

Curtiss P-40K

64th FS, 57th FG, 16th and 25th FS, 51st FG

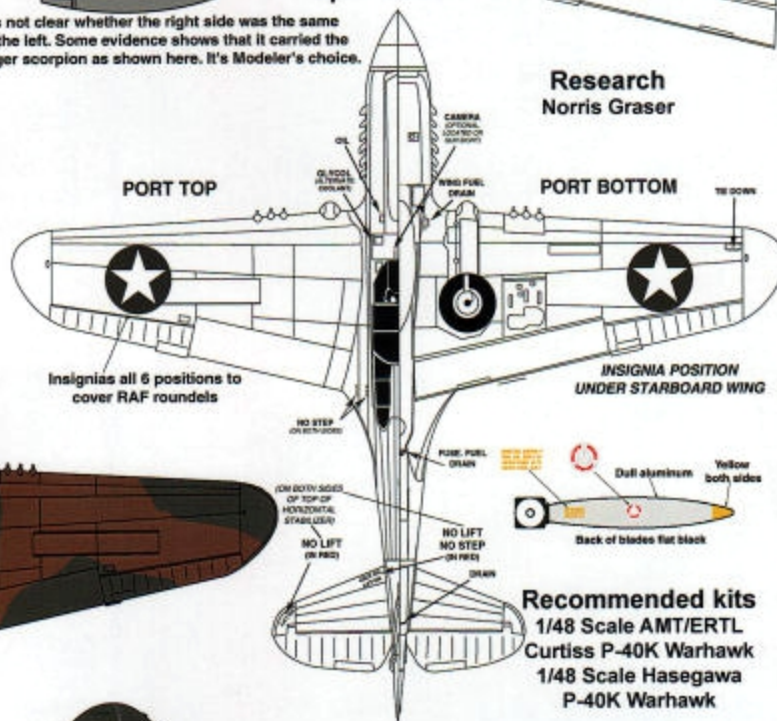

Split View

It is not clear whether the right side was the same as the left. Some evidence shows that it carried the larger scorpion as shown here. It's Modeler's choice.
