This sheet provides roundels and fin flashes for Spitfires and Hurricanes from the mid-1942 period through the end of WWII. The red centers of the three and four color roundels are printed separately to allow perfect color registration. Applications are as follows:

- A: Spitfire upper wing Type B
- B: Spitfire upper wing Type C
- C: Hurricane upper wing Type B
- D: Fuselage Type C1 - 36"
- E: Lower wing Type C - 32"

NOTE:

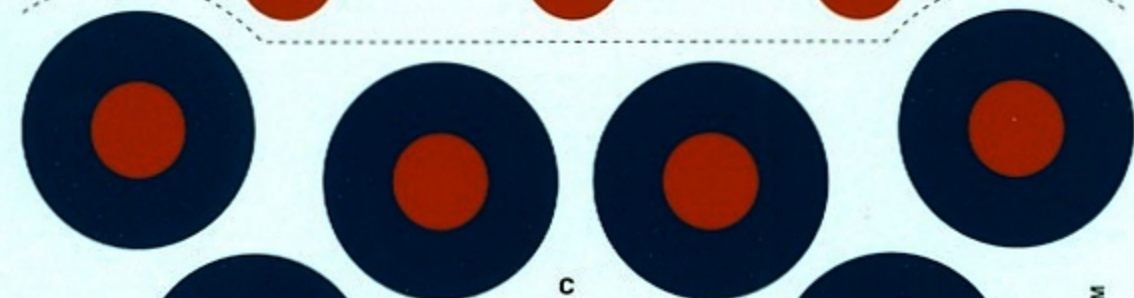

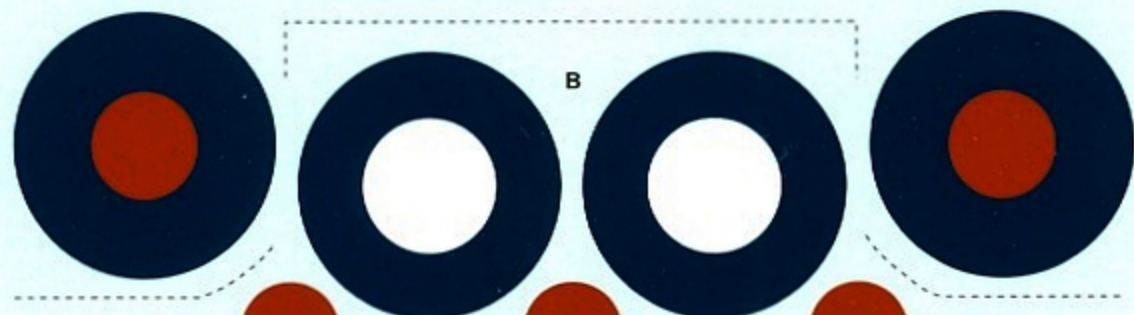

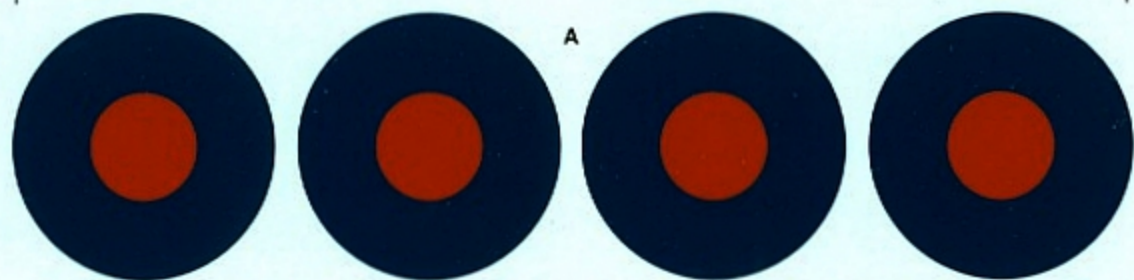

Fin flashes are provided in the standard 24" x 24" size as well as the taller style seen on some late war aircraft. Also provided are two complete sets of command pennants (12" lengths) and 24" prototype "P" markings applied to many Spitfire prototypes during the WWII period and afterward.

If you have suggestions for future subject matter, AeroMaster would like to hear from you. Our goal is to provide high quality, well researched decals of unusual and interesting subjects. We value our customers' input, so if you have specific suggestions or photographs of unusual subject matter which you would be willing to share, please contact:
