# Bf 109 Gustavs

## Notes on Aircraft

### Yellow 7

- Very good example of the practice of prepainting sub-assemblies prior to mating them. The cowl appears to be RLM 75, while the entire fuselage/tail is a very dark cloudy color that we've interpreted as a combination of RLM 81 & 83.
- Spinner and forward cowl is either RLM 66 Black Gray or pure black.

### White 33

- Aft fuselage repainted in a very light color that we've interpreted as RLM 02.
- Mottles are very well defined, detailed and have a fairly hard edge considering they were sprayed on.
- Note white ring on spinner.

### Black 29

- Fuselage began as RLM 74/75, then had 83 added with hard edges spots of either 02 or 76 added over that.
- Note that the antenna mast is missing.
- This aircraft \*may\* have been a G-14.

## Applying the Decals

You probably already know all this stuff, so feel free to use your regular process; however, if you're new to aftermarket decals, here goes:

- Generally, use the Microscale Finishing System. We don't recommend extremely strong decal solvents such as Solvaset.
- Your model must have a smooth, glossy surface, as decals won't adhere well to matte surfaces. Use gloss paints or your favorite clear gloss overspray over matte or semigloss paint.
- Cut each subject out without trimming off the slight excess film (this helps the decal film disappear when dry).
- Put the decal in warm water that has a drop or two of liquid dishwashing soap or photo-flo for 10 seconds.
- When the decal will slide off the backing paper without forcing it, apply it to the proper position on your model. Slide the backing paper out from underneath.
- Gently blot off excess water and smooth out bubbles under the decal surface. If you wish, carefully brush on a mild decal softener such as Micro-Sol.
- When all decals are completely dry, gently wash off all excess decal adhesive.
- Finally, overcoat your model with a good quality gloss coat, followed by your choice of matte or eggshell clear topcoat.

## FS 595 Color Cross Reference

RLM 02	Xtracolor X201, Floquil 303271, Polly Scale 505075
RLM 04	Xtracolor X213, Floquil 303269, Polly Scale 505017
RLM 74	Xtracolor X206/144, Polly Scale 505059, Floquil 303247, Gunze Sangyo H068/H319, Tamiya XF62
RLM 75	Xtracolor X207, Polly Scale 505060, Floquil 303249, Gunze Sangyo H069/H057
RLM 76	Xtracolor X208/138, Polly Scale 505061, Floquil 303251, Pro Modeler 88-0042, Gunze Sangyo H062, Modelmaster 1731, Tamiya XF66
RLM 81	Xtracolor X210, Floquil 303263, Polly Scale 505070
RLM 82	Xtracolor X211, Floquil 303265, Polly Scale 505071
RLM 83	Xtracolor X212, Floquil 303267, Polly Scale 505072
