These markings represent the Boeing delivery scheme with some tweaks applied by the Corrosion Control shop at VFA-147. These jets have not received their Plane Captain names at this time.

Wingtip launch rails are FS36375 top and bottom.

Thanks to Casey Berry of the VFA-147 Corrosion Control shop for his help in pointing out the subtle differences.

Special thanks go out to Gerry Clarke and Zach Falzon for their reference help on this sheet.

Twobobs' goal is to provide you with the most thoroughly researched decals that money can buy. We go beyond using traditional reference resources and many times speak with the actual aircrews and maintainers of our subject matter. Being modelers ourselves, we understand that there is no substitute for this painstaking research and we are proud to offer, what we feel, are the best decals on the market. If you have any subject matter that you feel should be the next Twobobs creation, let us know. We'll be happy to listen to any and all customer input.
