Stinging Hornets Pt. VI

Suggested Kit: Hasegawa F-18 Family

Stinging Hornets Pt. VI

AIRCRAFT 1 • F/A-18D, BuNo. 164949, #402 of VMFA (AW)-533 'Hawks', flown by Captain G.T. 'Flounder' Frazier and Captain E. R. 'Crusher' Kleiber, Bosnia. Very little stenciling. No wing walks. Photos sent to us by his Dad. Happy Birthday Dad!

AIRCRAFT 2 • F/A-18C (Actual BuNo. unknown) flown by the Executive Officer of VFA-27 'Royal Maces'. Gray wing walks, with minimum stenciling.

AIRCRAFT 3 • F/A-18A, BuNo. 163133, #01 of VMFA-451 'Warlords'. Photos of the aircraft do not clearly show the complete fuselage and drop tank stripes, so it is unknown if the star motif is continued completely along the stripes. Additional stars (Decals 37) are provided to add to fuselage and tank stripes if the modeler desires. Apply Black wing walk decals and allow to dry. Lay down decals 19 & 20 over the wing walks and fuselage/ wing extension. Allow to settle for about 5 minutes, and following the instructions on the decaling section, cut off the part overlapping the wing walk area. Remove and allow to dry. Commanding officer's name is Bogus. Use at your own discretion.
