This scheme was painted by  
Top Gun in the pattern  
of Col. Toon's Mig-17.

On 10 May 1972,  
LT Randall Cunningham  
engaged Col. Toon in one of  
the most epic dogfights of  
the modern era during the  
Vietnam conflict.

Up to that point in the war,  
Col. Toon had been credited  
with shooting down 13 US  
aircraft.

His third AIM-9 found its  
mark and LT Cunningham  
had his fifth (and last) kill of  
the war.
