## The Jolly Rogers

From the F4U Corsair to the F-6F Hellcat to the FH-1 Phantom to the F-2H Banshee then the F3H-2M Demon, F8U-2M Crusader, F-4B/J Phantom and F-14A/B Tomcat and now the F/A-18F Super Hornet. The history of the Jolly Rogers is one of the most storied of any flying squadron throughout the entire world. Hardly a squadron out there can compare its lineage to that of the Jolly Rogers.

It is now time for Jolly Rogers to turn the page to the next chapter. This sheet represents the Final Tomcat Cruise scheme for the F-14B of VF-103.

The Jolly Rogers are now in the midst of transitioning to the F/A-18F Super Hornet and will retire their beloved F-14Bs shortly. The skull and crossbones however, will forever live on!

"Remember me with The Jolly Rogers!" - Ensign Jack "Bones" Ernie, Apr 1, 1945

Twobobs' goal is to provide you with the most thoroughly researched decals that money can buy. We go beyond using traditional reference resources and many times speak with the actual aircrews and maintainers of our subject matter. Being modelers ourselves, we understand that there is no substitute for this painstaking research and we are proud to offer, what we feel, are the best decals on the market. If you have any subject matter that you feel should be the next Twobobs creation, let us know. We'll be happy to listen to any and all customer input.
