# RAF SABRES PT1

Canadair Sabre Mk F4, XB630, 'P', of 71 Squadron, RAFG Wildenrath, Germany, 1955.  
 Camouflage of Dark Sea Grey and Dark Green over PRU Blue undersides. Notice slated wing.

Canadair Sabre Mk F4, XB829, 'D', of 93 Squadron, RAFG Jever, Germany, 1955.  
 Camouflage of Dark Sea Grey and Dark Green over PRU Blue undersides. Notice slated wing.

**Note:**

Seen on a few photos of RAF Sabres were outlines to the aircraft letters. It hasn't been possible to distinguish whether these outlines were Night or Red. AMD have supplied both colored outlines to be used at the modellers' discretion.

Canadair Sabre Mk F4, XB931, 'G', of 4 Squadron, RAFG Jever, Germany, December 1954.  
 Camouflage of Dark Sea Grey and Dark Green over PRU Blue undersides. Notice slated wing.

**Note:**

The data stencils for all these aircraft do not always appear noticeable on reference photos. We have decided that it is best left to you the modeller to apply them if you so desire.

**Nose caps**

The fiberglass nose antenna fairing was usually painted Black or occasionally left unpainted. We therefore advise you to check your references regarding the colour.

**Tail fin tips**

The tailfin tips were usually painted Gray but on some Sabres they were various shades of Gray fiberglass. Again we advise you to check your references regarding the colour.
