Note: The two-tone grey scheme was the final name used on ANG A-7D aircraft. Although the general pattern seemed to be similar, every aircraft featured differences within the application of the demarcation lines of the colours used. In any case check your reference carefully.

Instructions

This AirDOC decal set allows you to build thirteen A-7D aircraft of the following US Air National Guard "SLUF" units – 1. 120th TFS, 140th TFW Colorado ANG – 2. 188th TFS, 150th TFG New Mexico ANG – 3. 125th TFS, 138th TFG Oklahoma ANG – 4. 146th TFS, 112th TFG Pennsylvania ANG and 5. 162th TFS, 178th TFG Ohio ANG. We provided stencils for two aircraft, which can either be built in the SEA, the SEA-Wraparound, the European-1 or the Two-Tone Grey camouflage.

Decal application:

To apply the decals cut each subject carefully from the backing paper. Do not cut away the excess film. Dip the decal for about 20 seconds into water and wait until it slides easily on the backing paper. Do not pull or push the decals before the adhesive has completely dissolved, otherwise it might be ruined. You may use a setting solution but this is not necessary. After the decal is applied to the model's surface, wait several hours until it has set and dried properly. **Do Not Touch It Prior!!** Depending on the surface's quality, a gloss varnish should be sprayed onto the model prior to the application of the decals, thus, the clear excess film will disappear completely.

Happy Decaling!

Kit suggestions to build a correct A-7E Corsair II:

1. 1/72 scale modelers try to obtain the very good Fujimi FUJ25011 A-7D kit.
2. 1/48 scale – Hasegawa HSG09320 or HAS07013 A-7D Corsair II from the P-series.
3. 1/32 scale – the recently released huge A-7D kit no. 02245 from Trumpeter of China.

In our opinion the following update kits are a must have for the serious modeler:

Verlinden:

- VE0756 LTV A-7 Corsair II upgrade set in 1/72 scale for the Fujimi kit.
- VL0544 LTV A-7 Corsair II upgrade set in 1/48 scale for the Hasegawa kit.

Aires:

- 7141 LTV A-7D Corsair II cockpit set
- 4117 LTV A-7D Corsair II cockpit set
- 4202 LTV A-7 Corsair II wheel bays

Black Box:

- CS32037 LTV A-7D Corsair II cockpit set for the Trumpeter kit.
