Anytime Babe!! Pt. IV

F-14 Tomcats

A/C #1 • F-14B, #101 of VF-103 'Jolly Rogers' as photographed at NAS Key West during a gunnery exercise. In addition to the specific stencils provided, the aircraft apparently carried minimal standard stencilling, and generally had a very patchy finish due to repainting.

A/C 2: Another F-14B of VF-103, but at a different time, and serving aboard the USS Enterprise. Markings are the same as above, including pilots and ground crew, but with a splendid Christmas motif on vertical stabilizers. Your Choice!

A/C#3 • F-14A of VF-103 Black Knights. Notice full color CAG markings on fins, ventral strakes, fuel tanks and canopy decorations.

33a+b and 34a+b
look like this

100

Paint ventral fins black
inside and outside.

Notice profiles and plan views for A/C 1 & 2 are those of F-14A's and not B's.

NOTE:

We have provided wing modex numbers (Decals 30 & 31 as an option as photos do not show with any certainty if the aircraft carried them.
