For the "final word" on Fw 190 camo & markings, **ColorTech #1** covers the colors, camouflage and markings of the Fw 190A/F/G (except special Russian Front schemes, which will be the subject of a future volume). In 24 - 8 1/2" x 5 1/2" pages we discuss the various recognition markings, Reichsverteidigung (Reichs defense) bands, theater markings, detail markings, etc., as well as seven gorgeous full-color profiles of specific Fw 190s in interesting colors and/or markings. Written by noted Luftwaffe researcher and artist Tom Tullis with research assistance from some of the top Luftwaffe researchers in the world, this book won't just gather dust on your bookshelf—you'll find yourself referring to it time after time!
