MOD:	MATT OLIVE DRAB
DU:	DULL ALUMINIUM
BM:	BURNT METAL
MY Y:	MATT YOLK YELLOW
MR:	MATT RED
S:	SILVER
ZC:	ZINC CHROMATE

NOTES: The wing surfaces of the P51D were filled and smoothed, removing all surface detail except for fine gaps between panels. This surface was then painted silver - not left as bare metal as is easily assumed from its appearance in photographs. Very little if any rivet detail was visible after this process. This ensured smooth, uninterrupted airflow over the laminar flow wing. All other surfaces (except where indicated) were left bare metal.
