

Attention!

This item is meant for hobbyists 15 years of age or older. Please do not give this item to children under 15.

This item is intended for use with the Zoukei-mura 1/32 "A-1H Skyraider".

The polyethylene bags that contain the parts and assembly manual present a suffocation risk. Please do not drop the parts or bend them in unintended ways, as they may be damaged.

In order to properly express the shape of the items, it was unavoidable for some parts to have sharp edges. Please be careful.

MD3 set

MD3 Towing A-1H

The MD3 was used as shown here to tow the A-1H.

The Zoukei-Mura 1/32 Scale Douglas A-1H Skyraider is available for separate sale. It is not included with this item. Make sure to get the Skyraider along with this item.

SUPER WING SERIES

Important Points for Assembly

Please carefully read the assembly manual prior to opening and make sure that everything is included. To use this item, tools such as nippers, craft knife, files, sanding papers, instant glue, etc. are required, so please prepare them.

Please prepare the parts first. You can remove seam lines and gate marks with tools such as nippers, a craft knife and files. Urethane resin is softer than the plastic material used for the kit. So be careful to avoid carving too much. Air bubbles can be filled with putty (epoxy, plastic, etc.) or similar, then finish with sanding paper. In the case that mold details are lost, you can recover them with tools such as spatulas.

For assembly, adjust the direction of each part while checking the balance and pose of your entire kit. Instant glue should be used for these parts. Please note that they cannot be glued with plastic model kit cement.

Base preparation is required before painting. Please thoroughly finish the base with a coat of surfacer spray (otherwise, the paint will chip off as time passes.)

With regard to paint, after taking personal safety and the global environment into consideration, we recommend using "Vallejo Colors," acrylic hobby paints for the new century. Please check references regarding the US Navy at that point and the assembly manual of 1/32 "A-1H" Skyraider, and finish your Skyraider in your preferred color scheme.

When it comes time to use tools and paints, please carefully follow the individual instructions respective to each tool for your safety.

We take the utmost of care when overseeing manufacturing, but if your kit is among the very small percentage that contains a defective part, please contact customer service within two weeks of your purchase with your full name and order number.

How to Assemble the MD3

Please assemble the MD3 as shown in the illustration below. All of the front and rear wheels need to be attached evenly in a straight position in order to touch the ground perfectly.

You can choose either the back pack or cover ballast for the rear part.
