(Featured in Squadron/Signal book 6091, page 25.)

Note non-standard fin color
in FS36118.

Note light gray cap.

(27a+27b+27c+27d)

Apply these AFTER decals
24 and 26 have been applied.

Due to printing limitations, we have opted to separate the tail markings to ensure exact alignment. Apply them in alphabetical order (25a, 25b, etc.) and apply duplicate white markings if necessary to achieve desired opaqueness. Note the tail art is not the same on both sides with each side featuring unique detailing.
