Microscale Decals F-14 Tomcat Data with unarmed missile markings

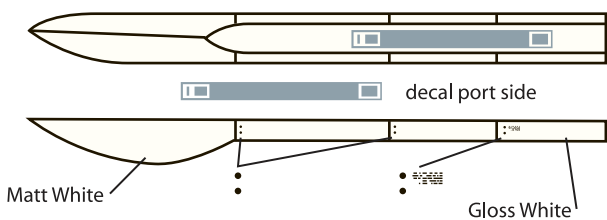

Phoenix missile pallets are painted the underside color of the F-14's in any particular squadron. If the Squadron has a mix of Lt. Gull Gray and White aircraft, along

with overall Lt. Gull Gray aircraft, you may see Gray missile pallets on Gray/White aircraft and White missile pallets on overall Gray aircraft.

The Gray carried on F-14's is Lt. Gull Gray FS 36440. This color has a slight gloss sheen to it. Undersurface White is FS 27875. Leading edges on all flying surfaces are Natural Metal.

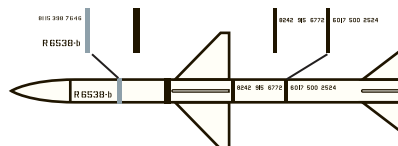

use only if missiles are not installed
