CANADA

For 116821 only apply the grounding point symbol part of the decal.

[www.lmdecal.com](http://www.lmdecal.com)

Option: Black stripes may be applied prior to the application of the roundels (remove black stripe that overlaps with the white of the roundel) or apply after the application of the roundel and trim away the black stripe along the edge of the roundel.

Black anti-glare paint is on the inner facing upper corner of the tip tank only.

For applying stripes first, remove black stripes in area where white background of roundel is located.
