

F-15 Mod Eagle Data

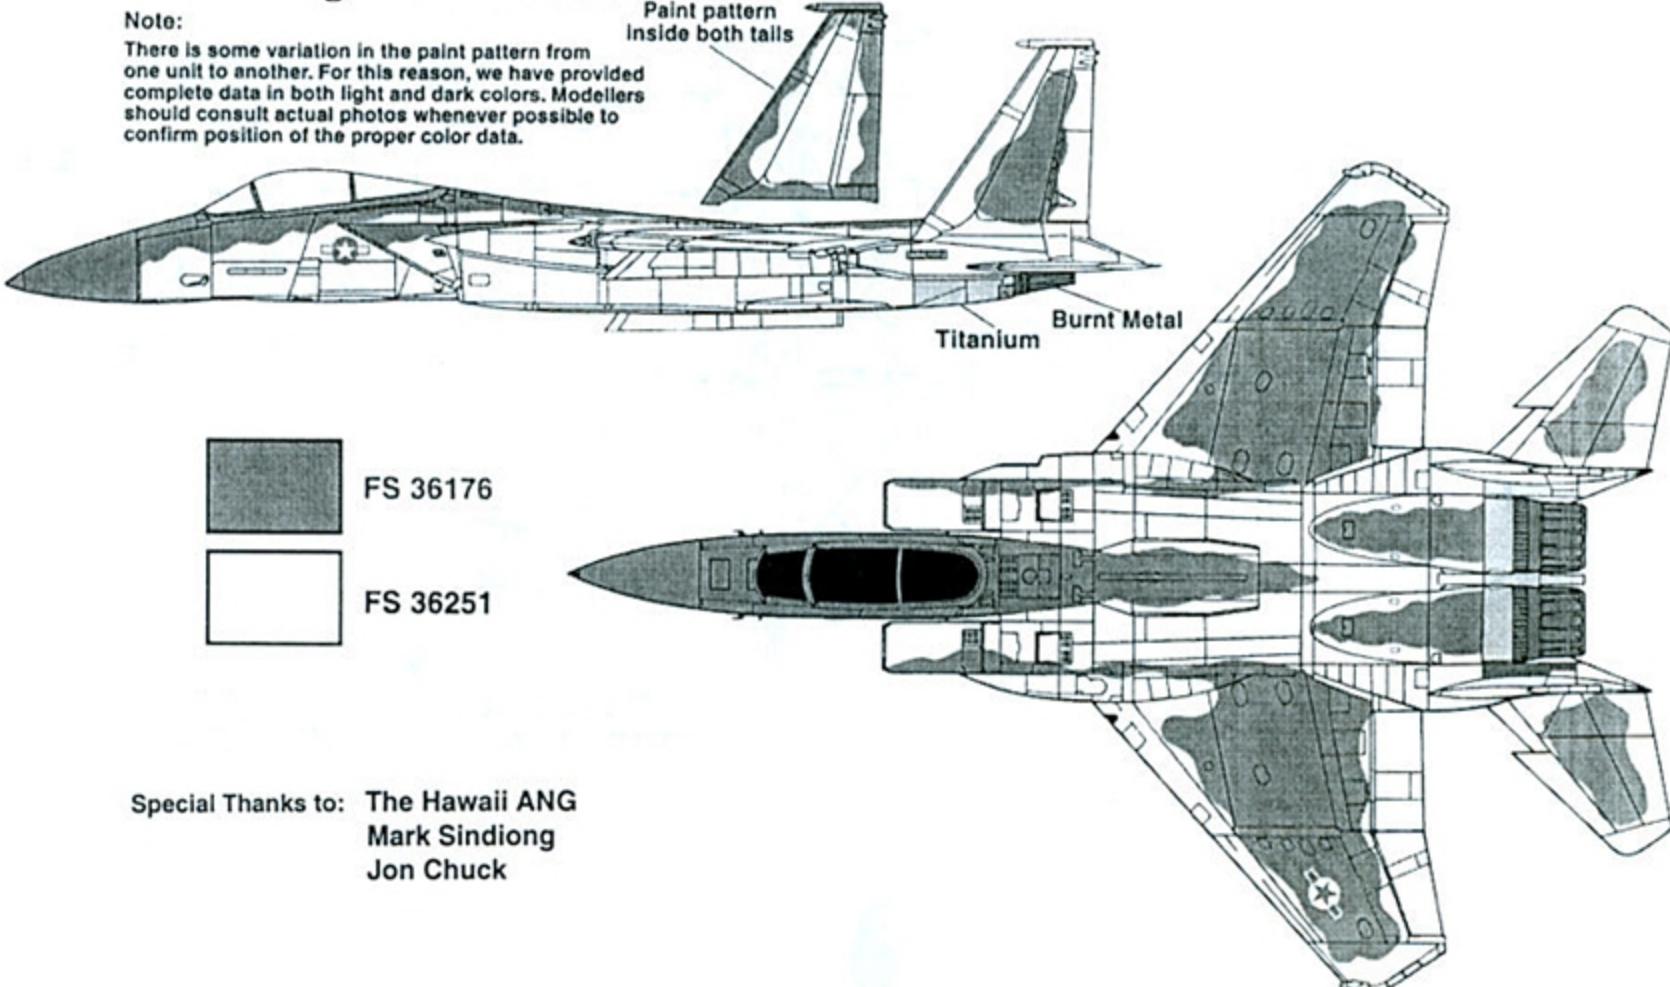

SuperScale Decal No. 48-523

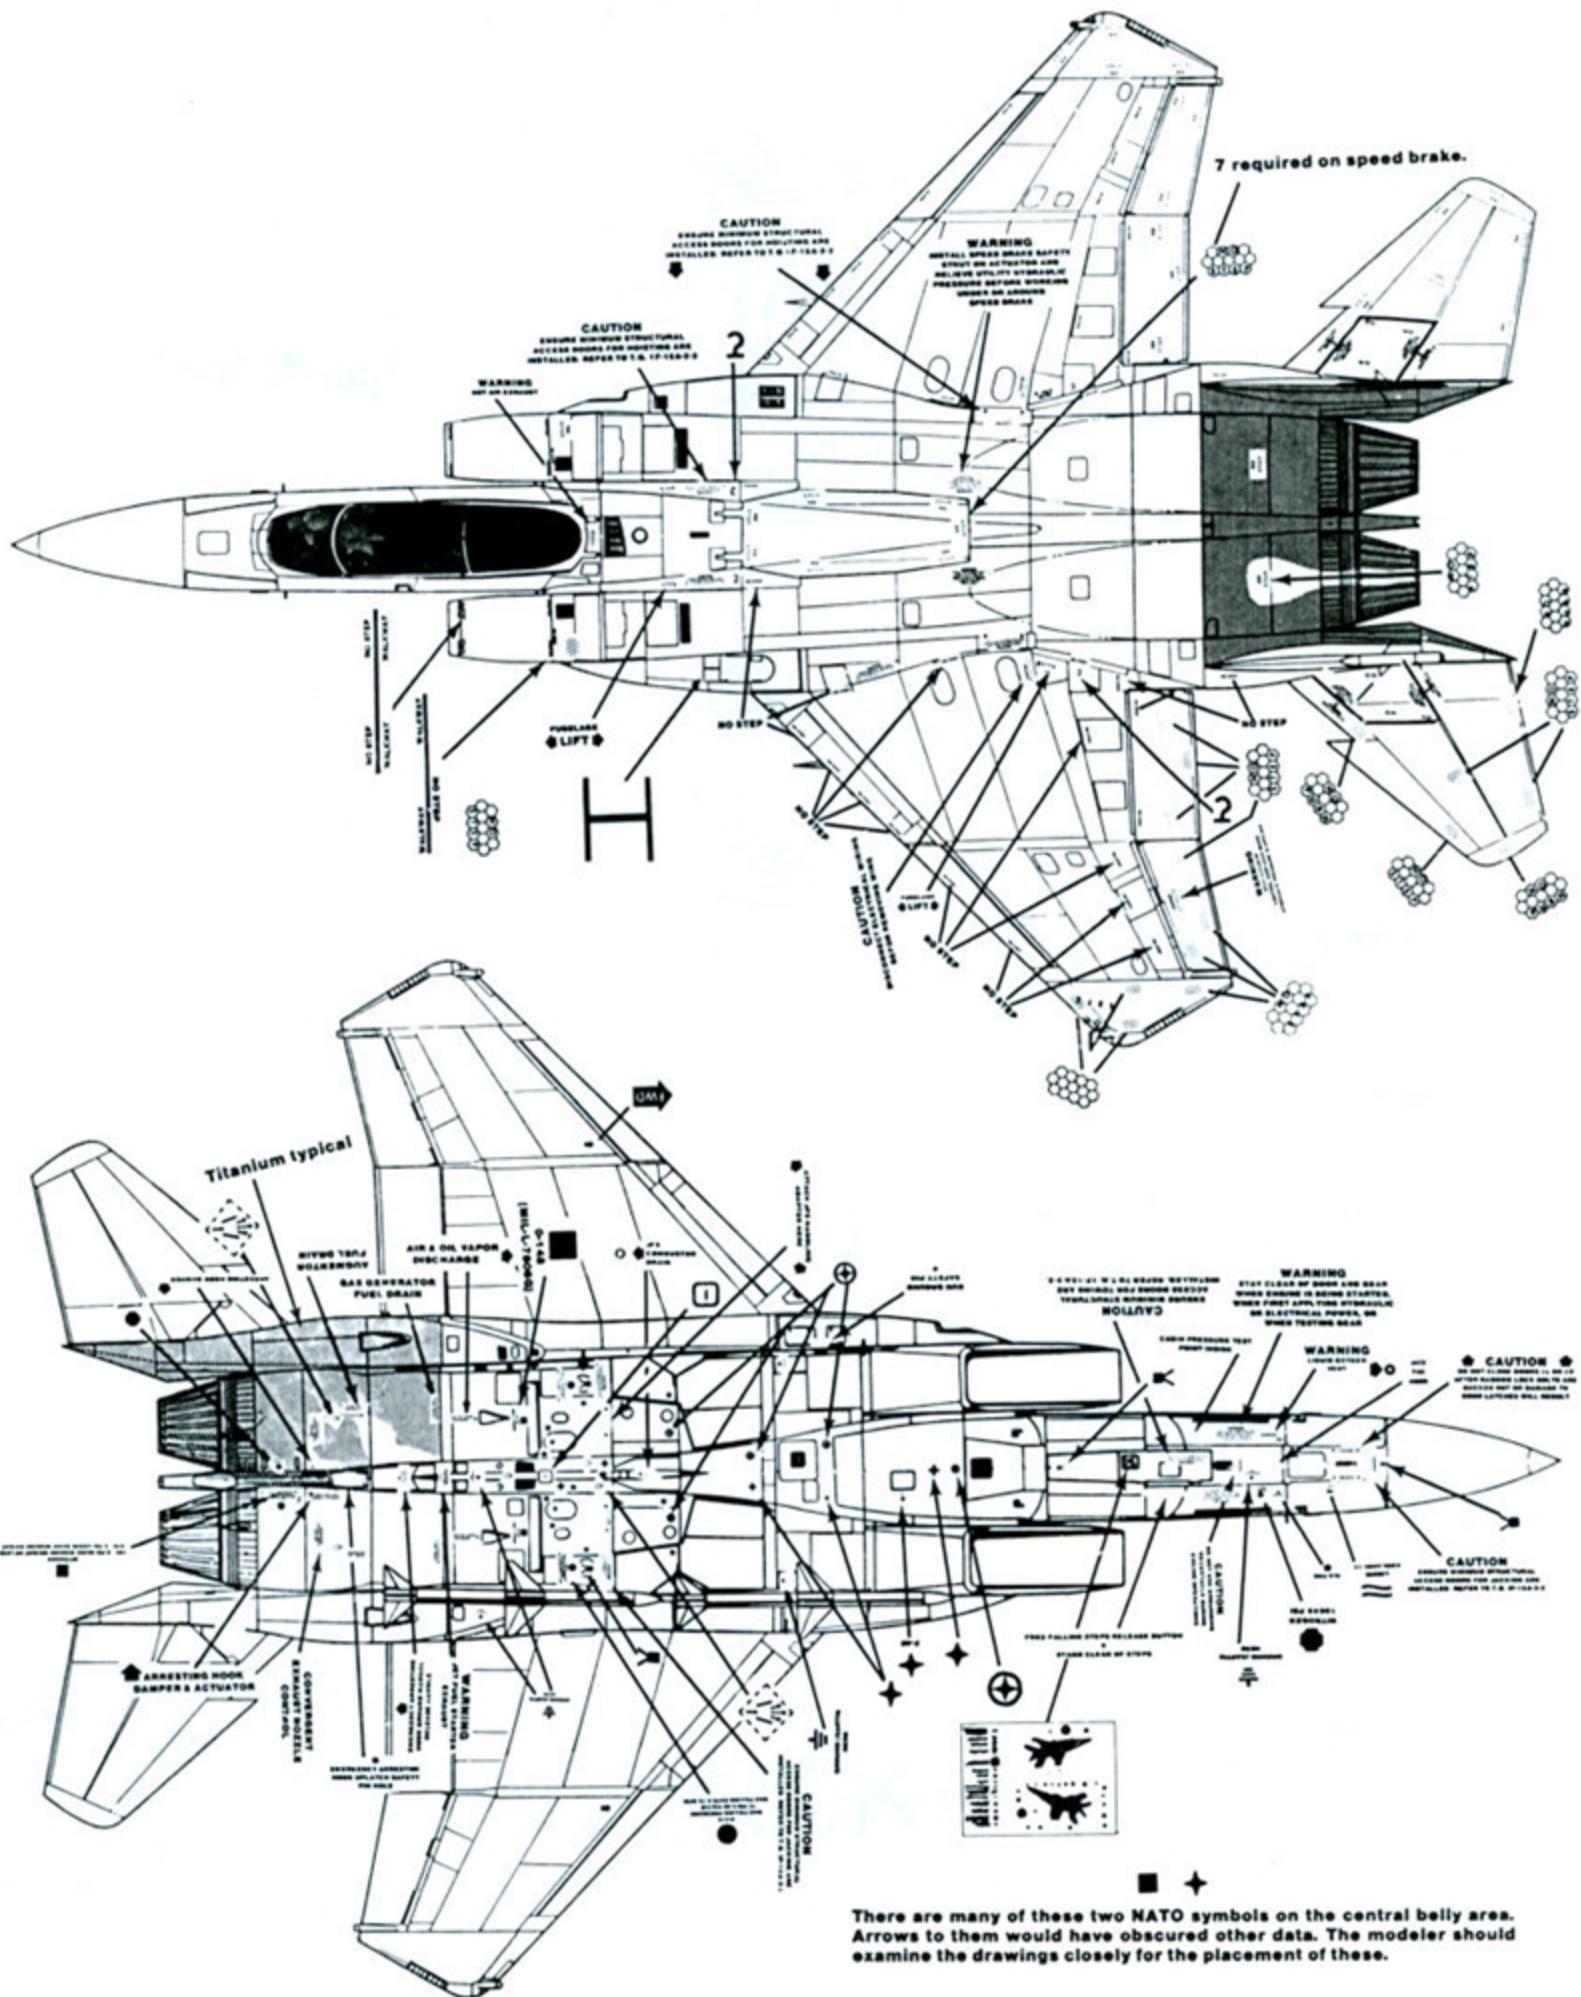

Mod Eagle Paint Scheme

Note:

There is some variation in the paint pattern from one unit to another. For this reason, we have provided complete data in both light and dark colors. Modelers should consult actual photos whenever possible to confirm position of the proper color data.

Special Thanks to: The Hawaii ANG
Mark Sindioni
Jon Chuck

There are many of these two NATO symbols on the central belly area.
Arrows to them would have obscured other data. The modeler should
examine the drawings closely for the placement of these.
