The 93rd Tactical Fighter Squadron "Makos" were part of the 482nd Tactical Fighter Wing. The squadron flew F-4D's from 1982 until 1990 when they transitioned to the F-16. Aircraft 64-0829 was assigned as the "Wing King" jet during 1982 and features a full "wrap-around" SEA camouflage pattern

This aircraft was flown by Col. Robin Olds on 20 May 1967 under the call sign "Tampa 01" and was responsible for (2) MiG-17 shootdowns during the SEA conflict. It was retired after being assigned to Kelly AFB and currently is on display at the USAF Museum.

Pelikan Modeling Club

The Pelikan Modeling Club is the oldest IPMS Chapter in the state of Florida. Established in 1970, the club consists of 40 members and they meet the first Tuesday of every month at the Armed Forces Military Museum in Largo, FL.

As the hosts of your 2012 IPMS National Convention, we are proud to bring to you this limited release national convention decal sheet. On this sheet you will find four F-4 Phantoms from Homestead and MacDill AFB, FL. The F-4 was a mainstay for many years over the Florida skies and each of the squadrons represented on this decal sheet have a rich heritage.

We hope you enjoy the subjects that we have selected and have a great time at the show!
