Suggested Kit: Grand Phoenix FJ-4B Fury

# Furies of the Fleet in Color

Pt. I

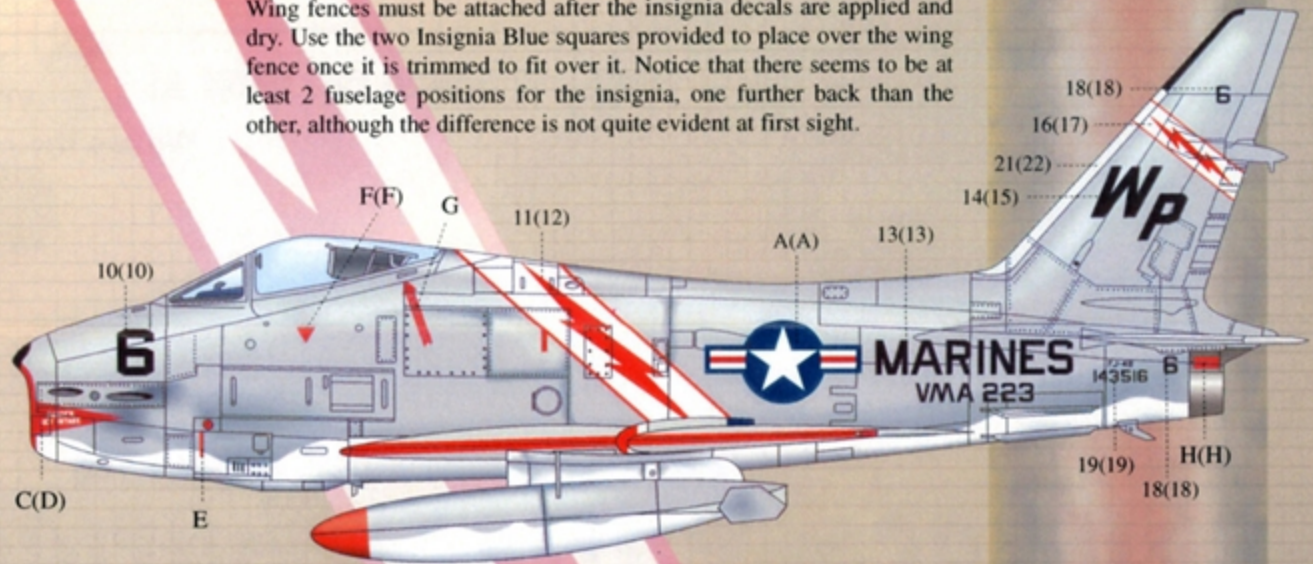

FJ-4B of CATG-4, 1958. Light Gull Gray uppersurfaces, White undersurfaces. Moveable surfaces on wings and stabilizers White. Natural metal leading edges to all flying surfaces.

Notice Black nose radar cover.

Wing fences must be attached after the insignia decals are applied and dry. Use the two Insignia Blue squares provided to place over the wing fence once it is trimmed to fit over it. Notice that there seems to be at least 2 fuselage positions for the insignia, one further back than the other, although the difference is not quite evident at first sight.

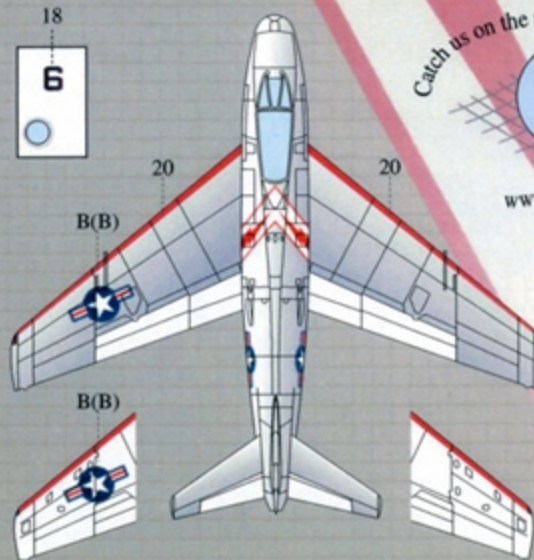

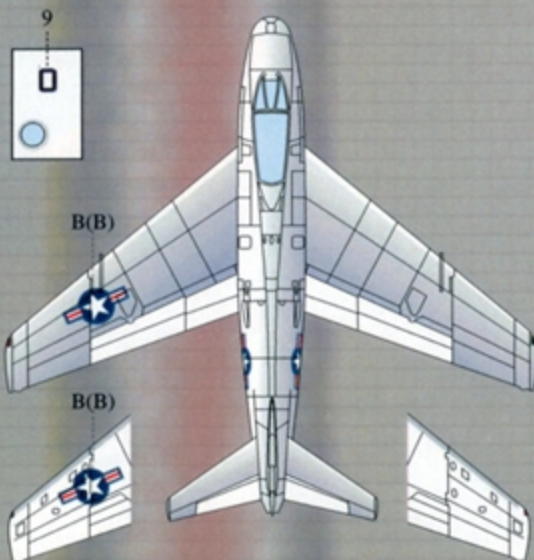

FJ-4B of VMA-223, Mid-1950s. Light Gull Gray uppersurfaces, White undersurfaces. Moveable surfaces on wings and stabilizers White. Wing leading edges appear to be Red. Center the middle of decal 20 on the very leading edge of the wing, half on top, half on the bottom. Apply decal 20 and wing insignias before you attach the wing fences. Leading edge of tail surfaces are natural metal. Decal 16(17) wrap around the N.M. leading edge.

These decals are designed to fit the Grand Phoenix Kit 003 and 004. However, with suitable trimming they may be used on the Matchbox/Revell and any other 1/48 scale kit available.
