

1/48 SCALE MODEL CONSTRUCTION KIT

Sycamore Mk.52

48010

Вертоліт Bristol Type 171 Sycamore був розроблений та побудований вертолітним підрозділом компанії Bristol Airplane Company. Він мав честь бути першим британський вертольотом, щоб отримав сертифікат льотної придатності, а також як першим британським спроектованим вертольотом що був введений у склад та служив у ВПС.

Як правило, він здатний взяти до трьох пасажирів, цей тип часто використовувався як транспортний.

Окрім британської військової служби, різні моделі Sycamore були виготовлені та експлуатувалися багатьма користувачами, включаючи військові операції за кордоном та цивільні замовники.

У 1959 році виробництво закінчилося після побудови 180-ти вертольотів.

The Bristol Type 171 Sycamore was an early helicopter developed and built by the helicopter division of the Bristol Aeroplane Company. It has the distinction of being the first British helicopter to receive a certificate of airworthiness, as well as being the first British-designed helicopter to be introduced by and to serve with the Royal Air Force.

Typically capable of seating up to three passengers, the type was often used as a transport for both passengers and cargo alike.

In addition to its British military service, various models of the Sycamore were produced and operated by a number of users, including overseas military operations and civil customers. Civilian operations typically involved transportation, mountain rescue, and aerial survey work. In 1959, production of the Sycamore ended after 180 rotorcraft had been completed.

Технічні характеристики / Technical specifications:

Довжина/Length - 18.62 м; Діаметр ротора/Rotor diameter - 14,8 м; Висота/Height - 4,23 м; Злітна вага (макс.)/Loaded weight - 5600 kg; Дальність польоту/Range - 238 км; Крейсерська швидкість/Cruising speed - 127 км/ч; Кількість пасажирів/Number of passengers - 3.
