**Note:**

The data stencils for all these aircraft do not always appear noticeable on reference photos. We have decided that it is best left to you the modeller to apply them if need be from the donor kit decal sheet.

**Nose caps**

The fibreglass nose antenna fairing was usually painted Black or occasionally left unpainted. We therefore advise you to check your references regarding the colour.

**Tail fin tips**

The tailfin tips were usually painted Gray but on some Sabres they were various shades of Gray fibreglass. Again we advise you to check your references regarding the colour.
