48th Scale NO. 48-58	TOMCAT DATA MICROSCALE DECAL BY KRASEL INDUSTRIES, INC., SANTA ANA, CA 92705	AIRCRAFT $2.50

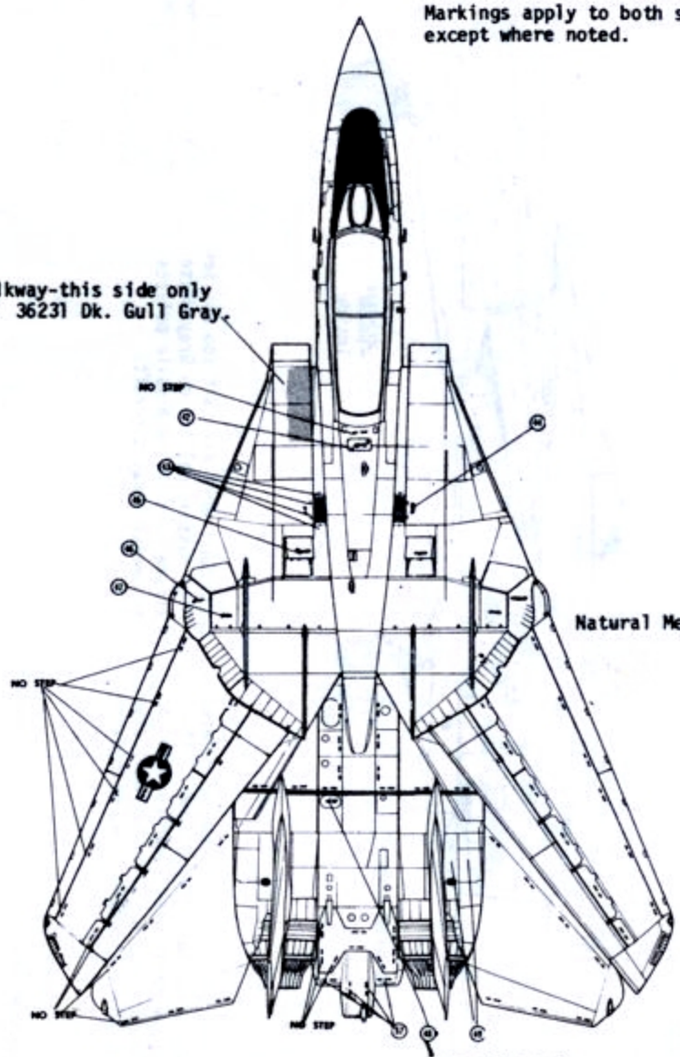
Recommended Kit - Fujimi F-14A 1/48th

Yellow "No Step" are used on white control surfaces while Black "No Steps" are used on control surfaces of overall gray aircraft.

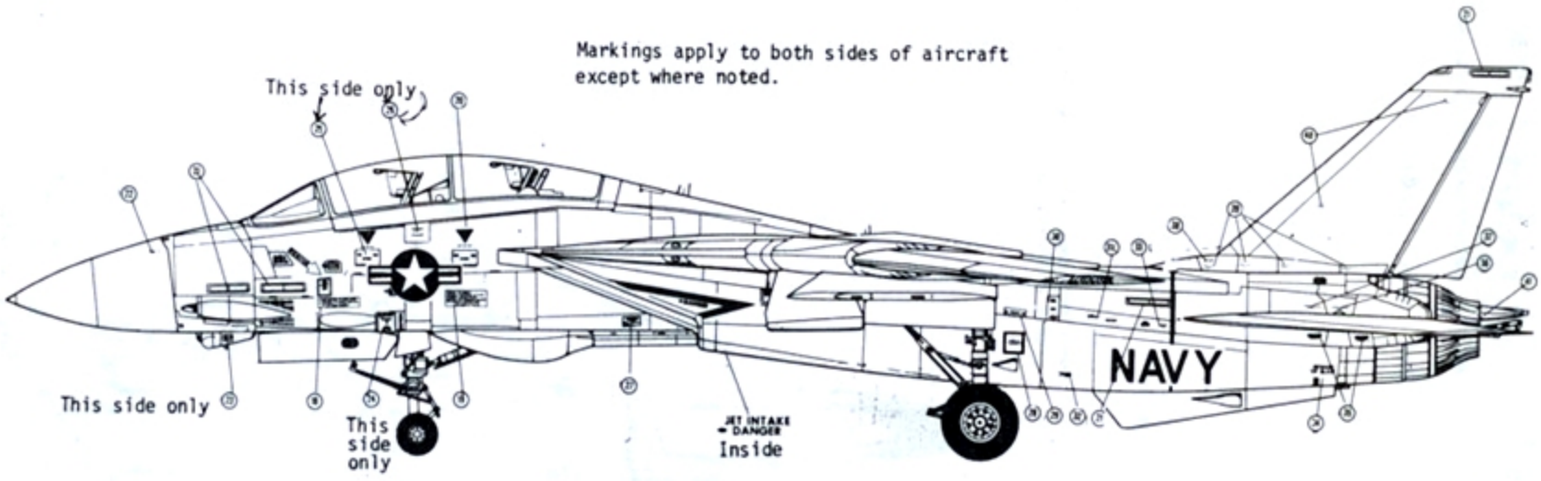
Markings apply to both sides of aircraft except where noted.

Walkway-this side only
FS 36231 Dk. Gull Gray



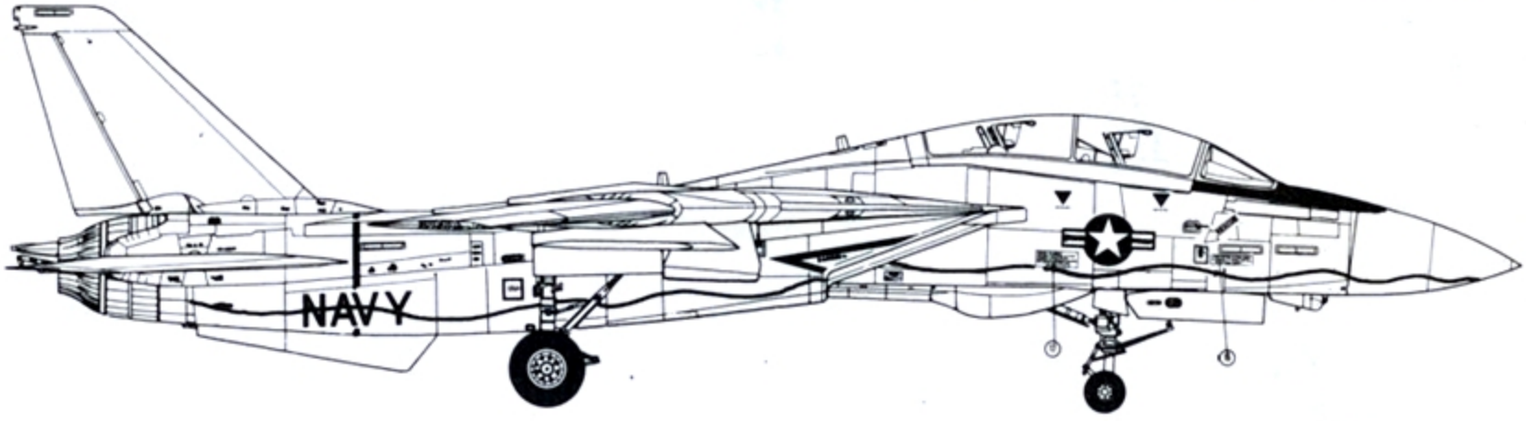
Natural Metal leading edge

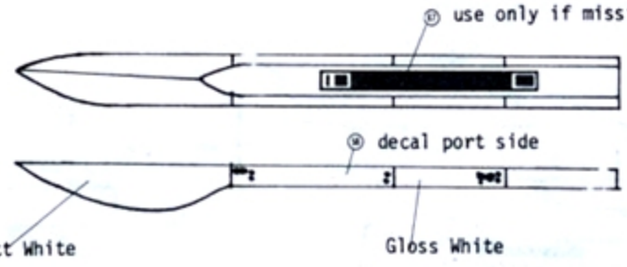
This side only



Phoenix missile pallets are painted the underside color of the F-14's in any particular squadron. If the Squadron has a mix of Lt. Gull Gray and White aircraft along with overall Lt. Gull Gray aircraft you may see Gray missile pallets on Gray/White aircraft and White missile pallets on overall Gray aircraft.

Drawings depict an F-14 wearing the Gull Gray/White USN Color Scheme. All Navy Fighter Aircraft are going to low visability markings and this includes the removal of the White undersurfaces and control surfaces. The Gray carried on F-14's is Lt. Gull Gray FS 36440. This color has a slight gloss sheen to it. Undersurface White is FS 27875.
Leading edges on all flying surfaces are Natural Metal.





Recommended Missiles:
Sidewinder from Monogram F-5E 1/48th
Sparrows from Revell F-15 or F-4E 1/48th
Phoenix as supplied with kit

Sidewinder AIM-9G/H
