Note:
We have tried to recreate the paint schemes on these three A/C as accurately as possible. Not all three were the same.

There are VERY few pictures of these aircraft in existence since they carried this scheme for only a short time up to the disestablishment of VF-74.

The schemes are representative of these A/C in December 1993.

Very, very special thanks to Gordon Geiger Bruce Trombecky and Darren Roberts for their help on this sheet. Researching this sheet was very tedious and we really lucked out when these guys contacted us!
