WHAT'S OUT THERE?
1/48th Revellgram F-15E
1/48th Great Wall Hobbies F-15E

From April to October 2018, the Panthers of the 494th Expeditionary Fighter Squadron and Expeditionary Maintenance Unit deployed to an undisclosed location in the Middle East. As a major offensive air component of Coalition Joint Task Force OIR, the Panthers flew over 2,100 sorties totalling greater than 11,000 hours, and expended over 500 air-to-surface weapons in strikes against Islamic State of Iraq and Syria (ISIS). The Panthers' lethal, highly successful combat deployment helped advance the defeat of ISIS and secure the goals of regional stability.

Special Thanks to Mike Cabral and Anthony Wan for all the references for this sheet.

CAUTION
 Do not place
 this decal on the
 main gear door

F-15E Strike Eagle
 Basic Stencil Data Placement

Note:
 There is some inconsistency on "when" and "if" these aircraft carried their
 nose art names on the starboard side of their aircraft in the name tape block.
 There was also a period of time when some of these aircraft carried both
 aircrew and maintainer call signs in the starboard name tape area, but this
 was for a very short period of time.
 Due to these inconsistencies and the inability of squadron personnel to recall
 if these instances occurred, we have elected to capture these aircraft in their
 one, consistent "known" condition and have not included the nose art names
 on the starboard side of these aircraft.
