#3 Ki-61I Tei, 56 Air Combat Regiment, 1945. Itami Air Base, Japan. Overall Olive Drab with natural metal under surfaces. Note: stencil placement is shown on this aircraft only, but applies to all A/C.

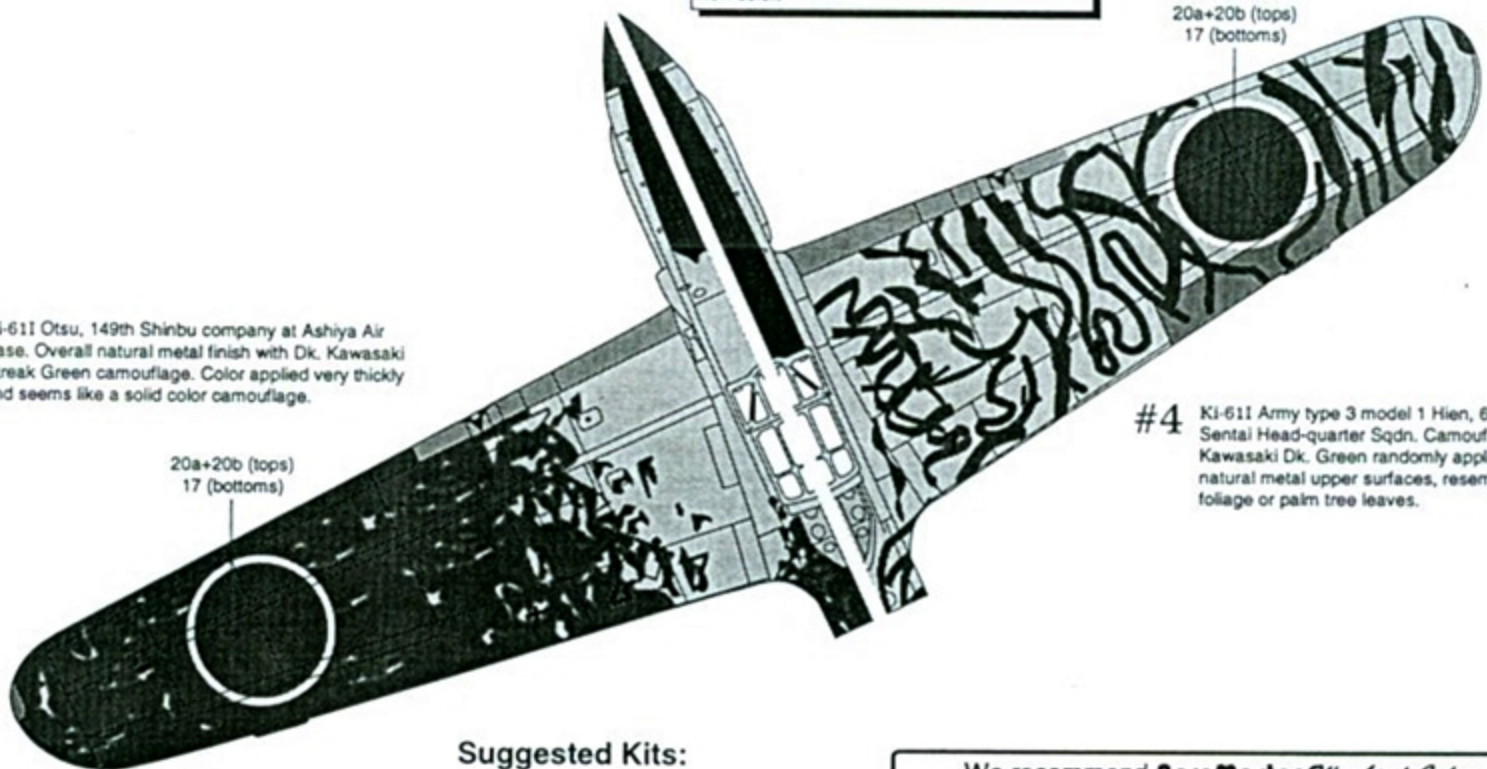

#2 Ki-61I Tei, 244th ACR, 2nd company, 1945. Chofu Air Base, Japan. Overall natural metal finish with Dk. Kawasaki Green dapple. Paint white band on fuselage and wing before applying himarus. No antenna post.

Note: For maximum opacity on the tail Sentai emblem, we are providing a white underlay. Although not necessary, if you decide to use it, lay the white decal first and later the red.

Note: All NMF Tonys had the fabric covered control surfaces (ailerons, rudder, elevators) painted light gray/green. If A/C was painted, the corresponding part would also be painted the new color.

#1 Ki-61I Otsu, 149th Shinbu company at Ashiya Air Base. Overall natural metal finish with Dk. Kawasaki Streak Green camouflage. Color applied very thickly and seems like a solid color camouflage.

#4 Ki-61I Army type 3 model 1 Hien, 68th Sentai Head-quarter Sqdn. Camouflage is Kawasaki Dk. Green randomly applied over natural metal upper surfaces, resembling foliage or palm tree leaves.

Suggested Kits:
