Large Decal Placement Instructions

NOSE PAINTING OPTION

Two thin white line decals per side of nose are provided. Suggest painting nose area up to canopy frame red, then apply first thin red line to show demarcation line for masking black. Apply black paint. Either the second thin white line or the red / white decal may be used.

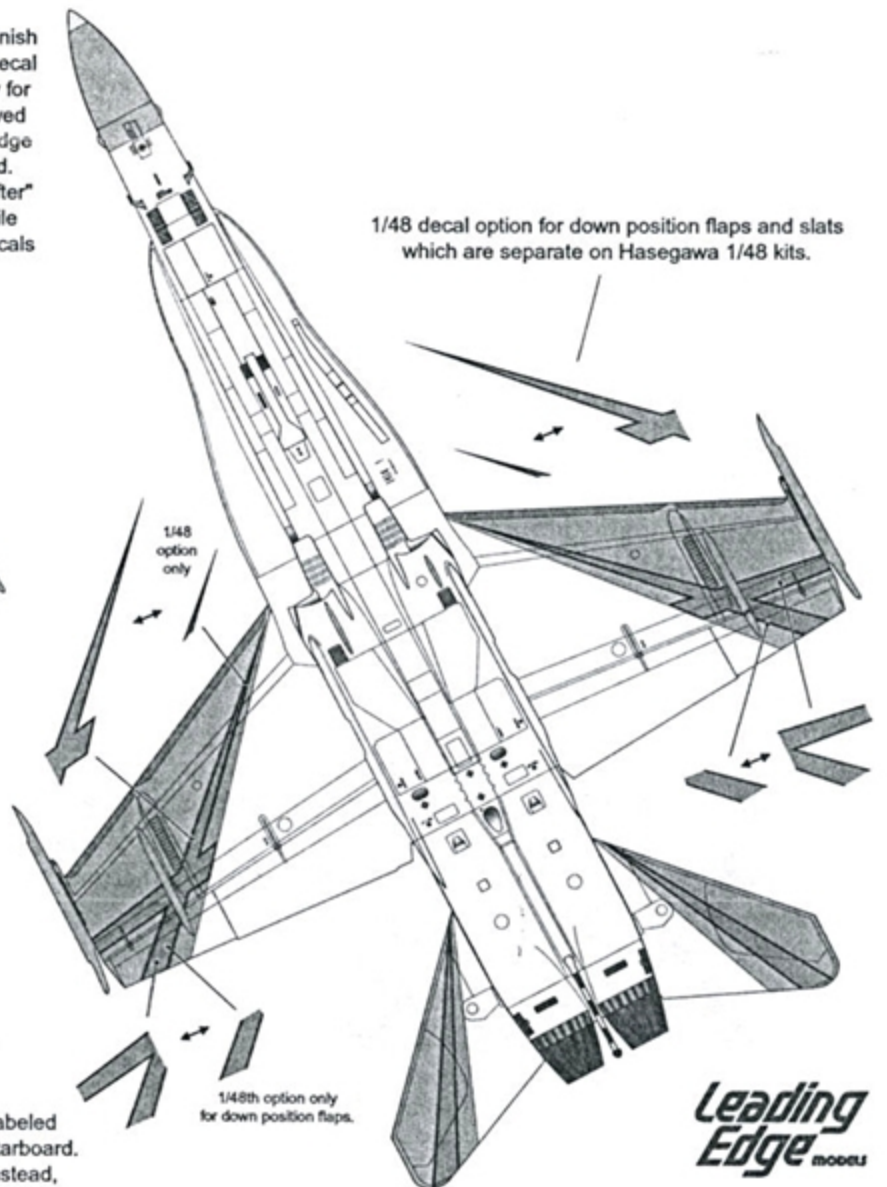

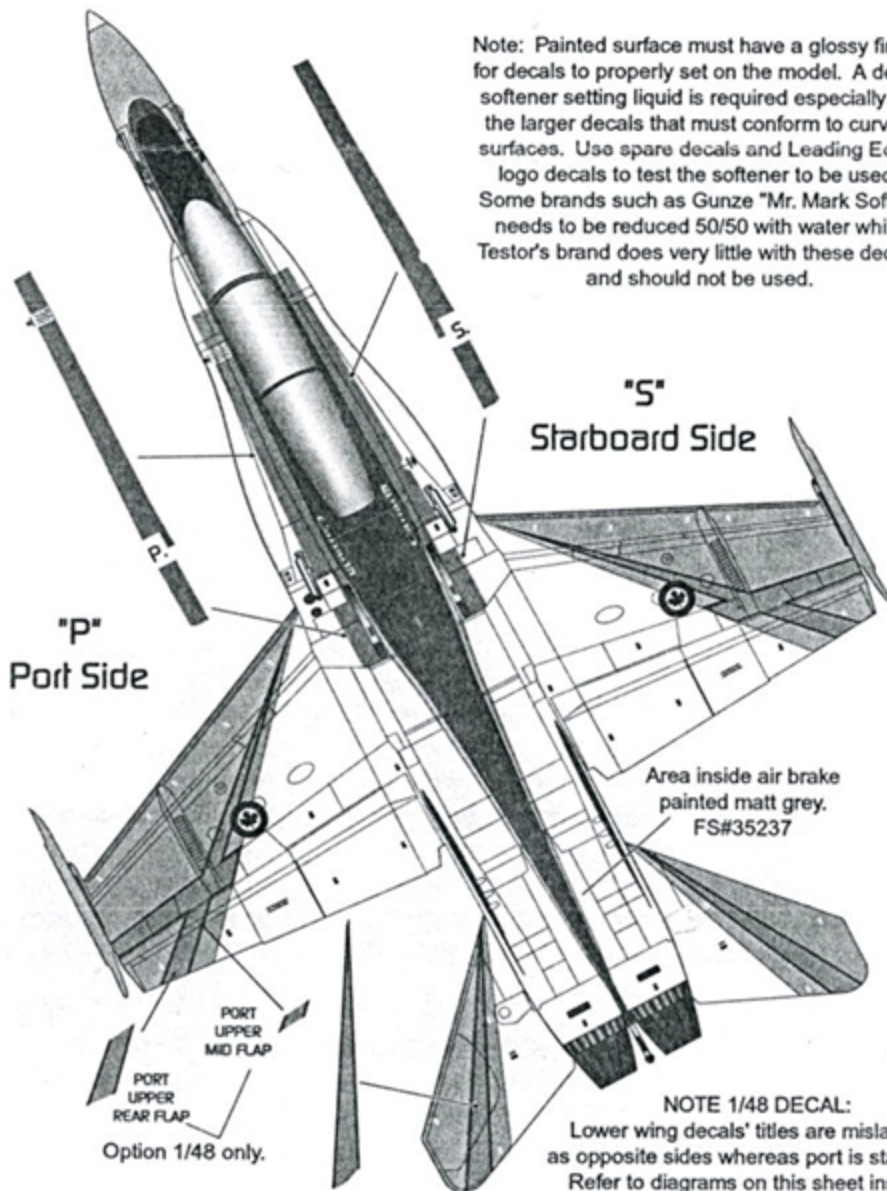

"P"
Port Side
"S"
Starboard Side

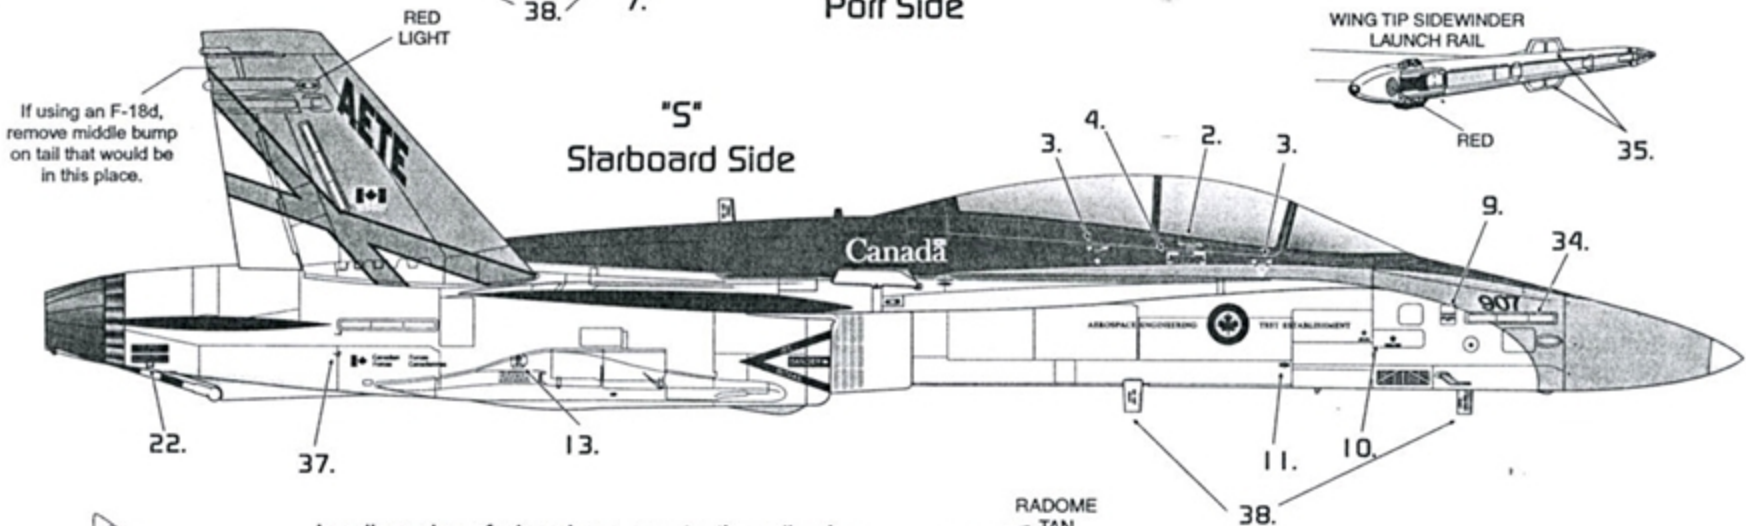

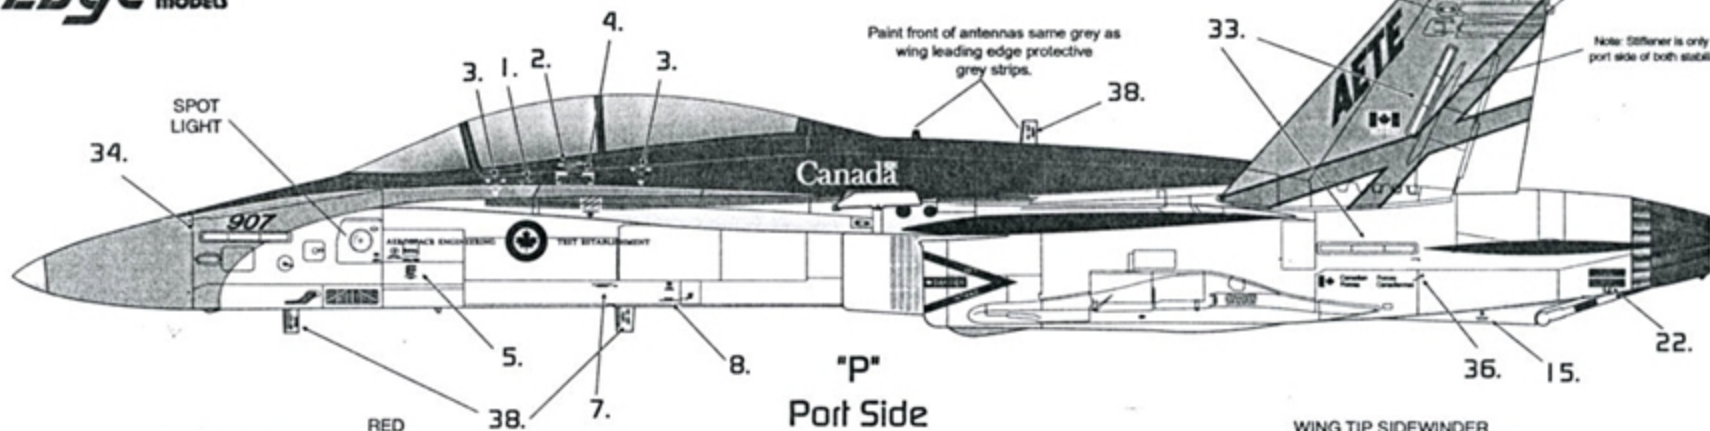

FOD COVER LOGOS
AETE fod covers are made of red vinyl Naugahyde. Apply logo decals on fod covers.

Note: Painted surface must have a glossy finish for decals to properly set on the model. A decal softener setting liquid is required especially for the larger decals that must conform to curved surfaces. Use spare decals and Leading Edge logo decals to test the softener to be used. Some brands such as Gunze "Mr. Mark Softener" needs to be reduced 50/50 with water while Testor's brand does very little with these decals and should not be used.

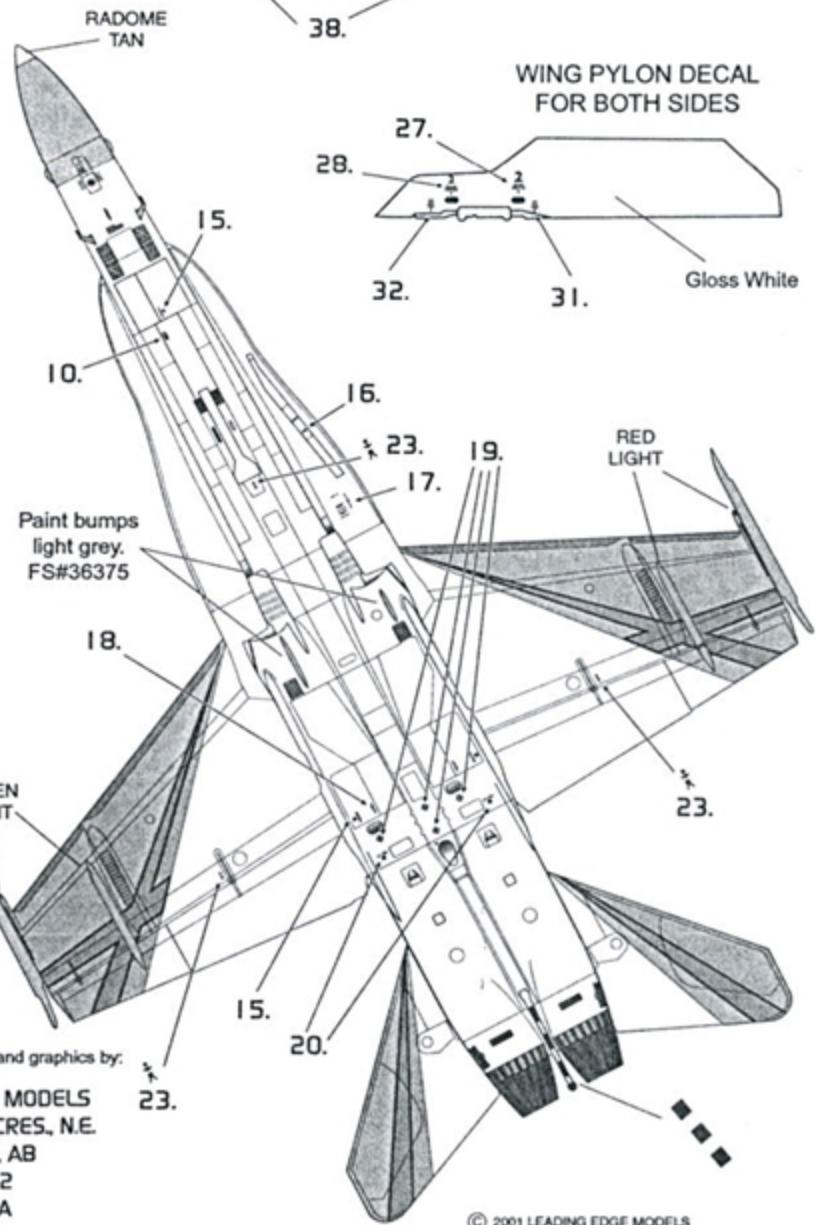

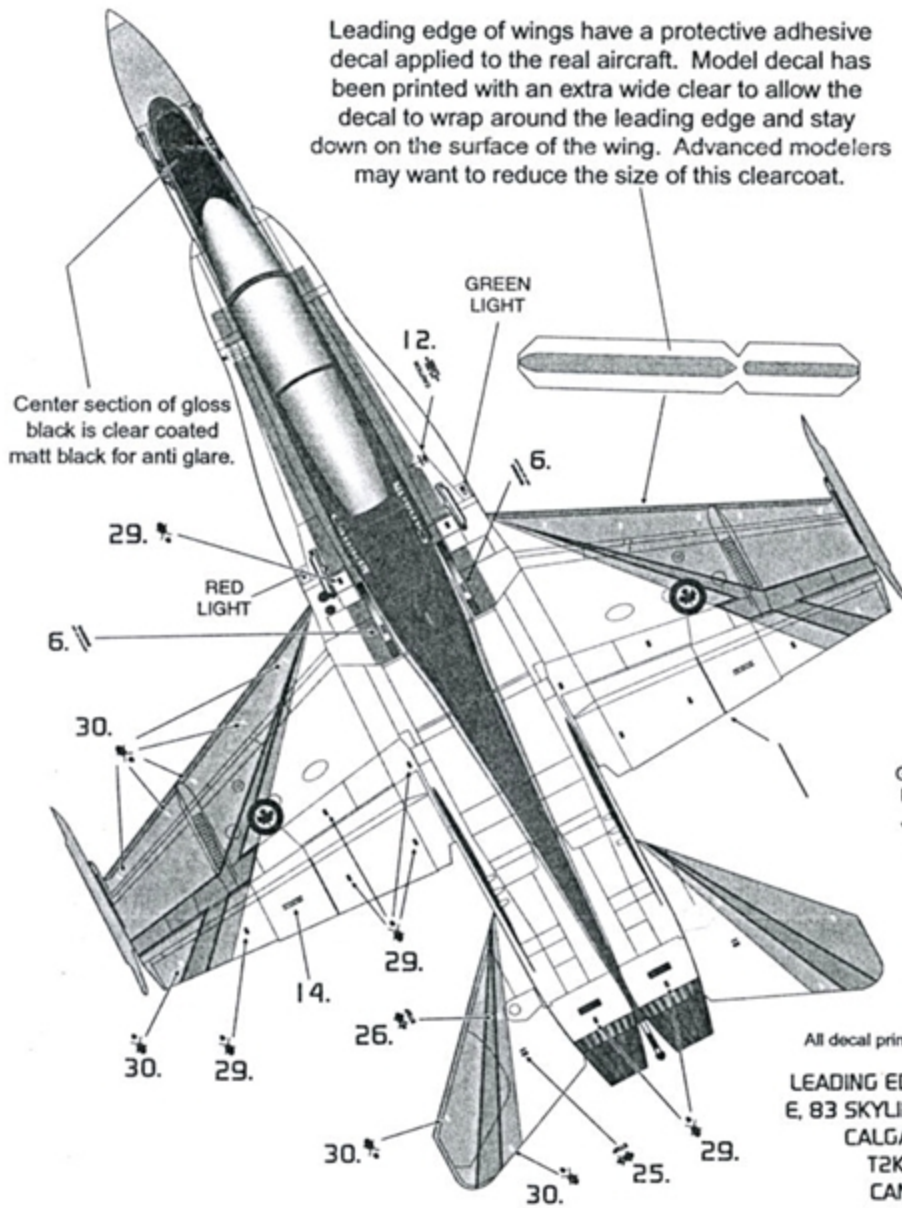

1/48 decal option for down position flaps and slats which are separate on Hasegawa 1/48 kits.

NOTE 1/48 DECAL:
Lower wing decals' titles are mislabeled as opposite sides whereas port is starboard. Refer to diagrams on this sheet instead,

Leading edge of wings have a protective adhesive decal applied to the real aircraft. Model decal has been printed with an extra wide clear to allow the decal to wrap around the leading edge and stay down on the surface of the wing. Advanced modelers may want to reduce the size of this clearcoat.

Paint Masking Instructions

DECAL SET #48.39 1/48 SCALE

1/48 Scale Drawings

Demarcation line of red and white paint.

Leading Edge MODELS

Outward Facing Side of Lex Fence

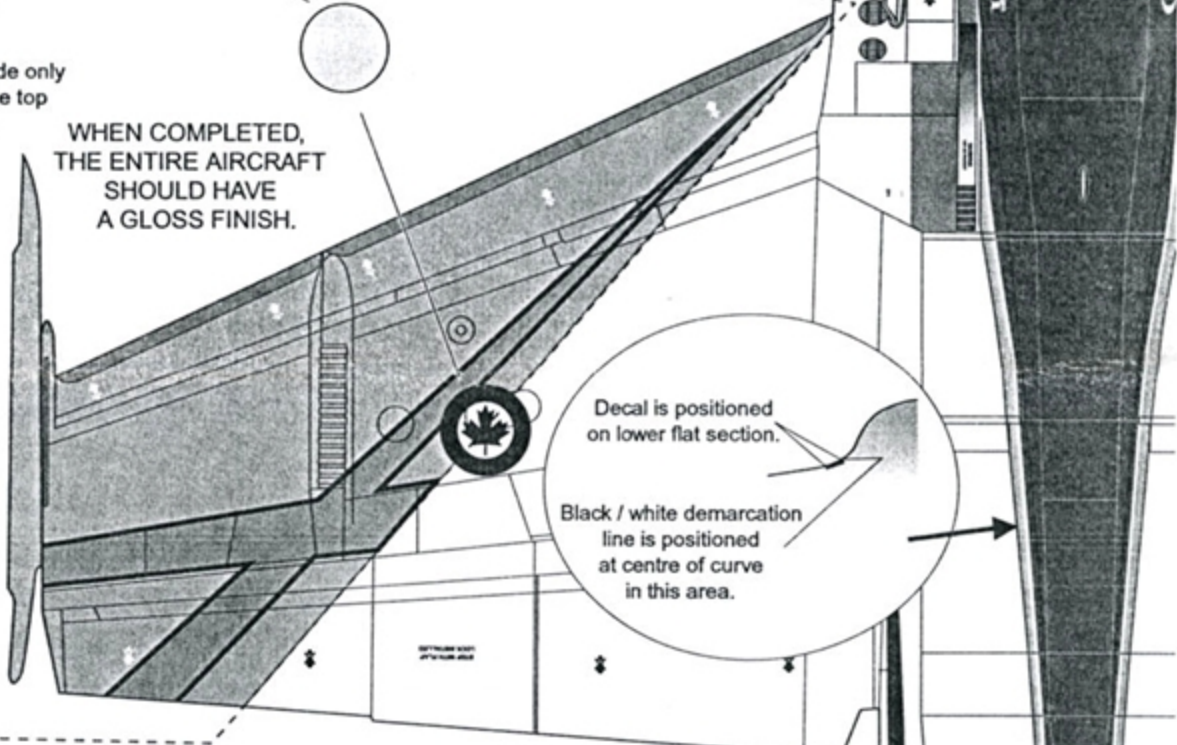

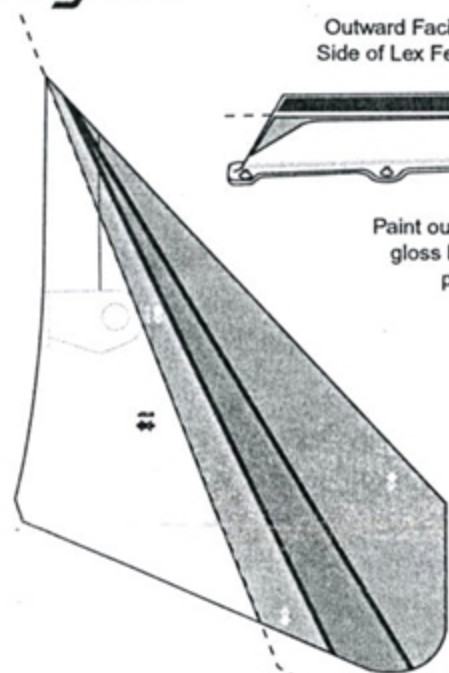

Paint outside facing side only gloss black along the top prior to decals.

White decal provided as a background to be applied prior to the roundel decal if red paint is not masked with a notched area for the white background of the roundel.

WHEN COMPLETED, THE ENTIRE AIRCRAFT SHOULD HAVE A GLOSS FINISH.

Note: Inward facing side and edges of LEX fence is painted white.

Decal is positioned on lower flat section.

Black / white demarcation line is positioned at centre of curve in this area.

Decal is positioned on sides at the rear.

Photocopy this sheet at exactly the same size, cut out red sections and lay on model. Mark paint demarcation lines and mask.

Flap hinges remain entirely red.
