

MICROSCALE DECAL NUMBER 48-260 F-4 PHANTOM WALKWAYS USN/USMC

This decal sheet provides walkways for the F-4 Phantom. The walkways are fitted for the Monogram or Hasegawa kits in 1/48 scale and the Italeri, ESCI or Fujimi kits in 1/72 scale. There are walkways for the wings, top of fuselage and the tops of the intake trunks. The shapes furnished have been selected from many color photos of USAF/USN/USMC aircraft.

Modelers note: these walkways on the actual aircraft are made with an abrasive material that gives a very flat, gritty appearance. Fine talcum powder in Microcoat Flat will give this appearance. Some Phantoms have the walkway areas done in the aircraft camouflage colors. This will appear as a very flat color. Close examination of photos will show this.

USN/USMC

Gray FSC 36231 with Red RAT and access doors

Gray FSC 36231 with Red RAT door

Gray FSC 35177 with Gray FSC 36231 RAT and access doors

Black with Red RAT door
