

CANADIAN ARMED FORCES T-33 METAL / RED SCHEME

DECAL SET # 72.15 1/72 SCALE
48.15 1/48 SCALE

**Leading
Edge** MODELS

*Limited Edition Model Decal
(Short Production Runs)*

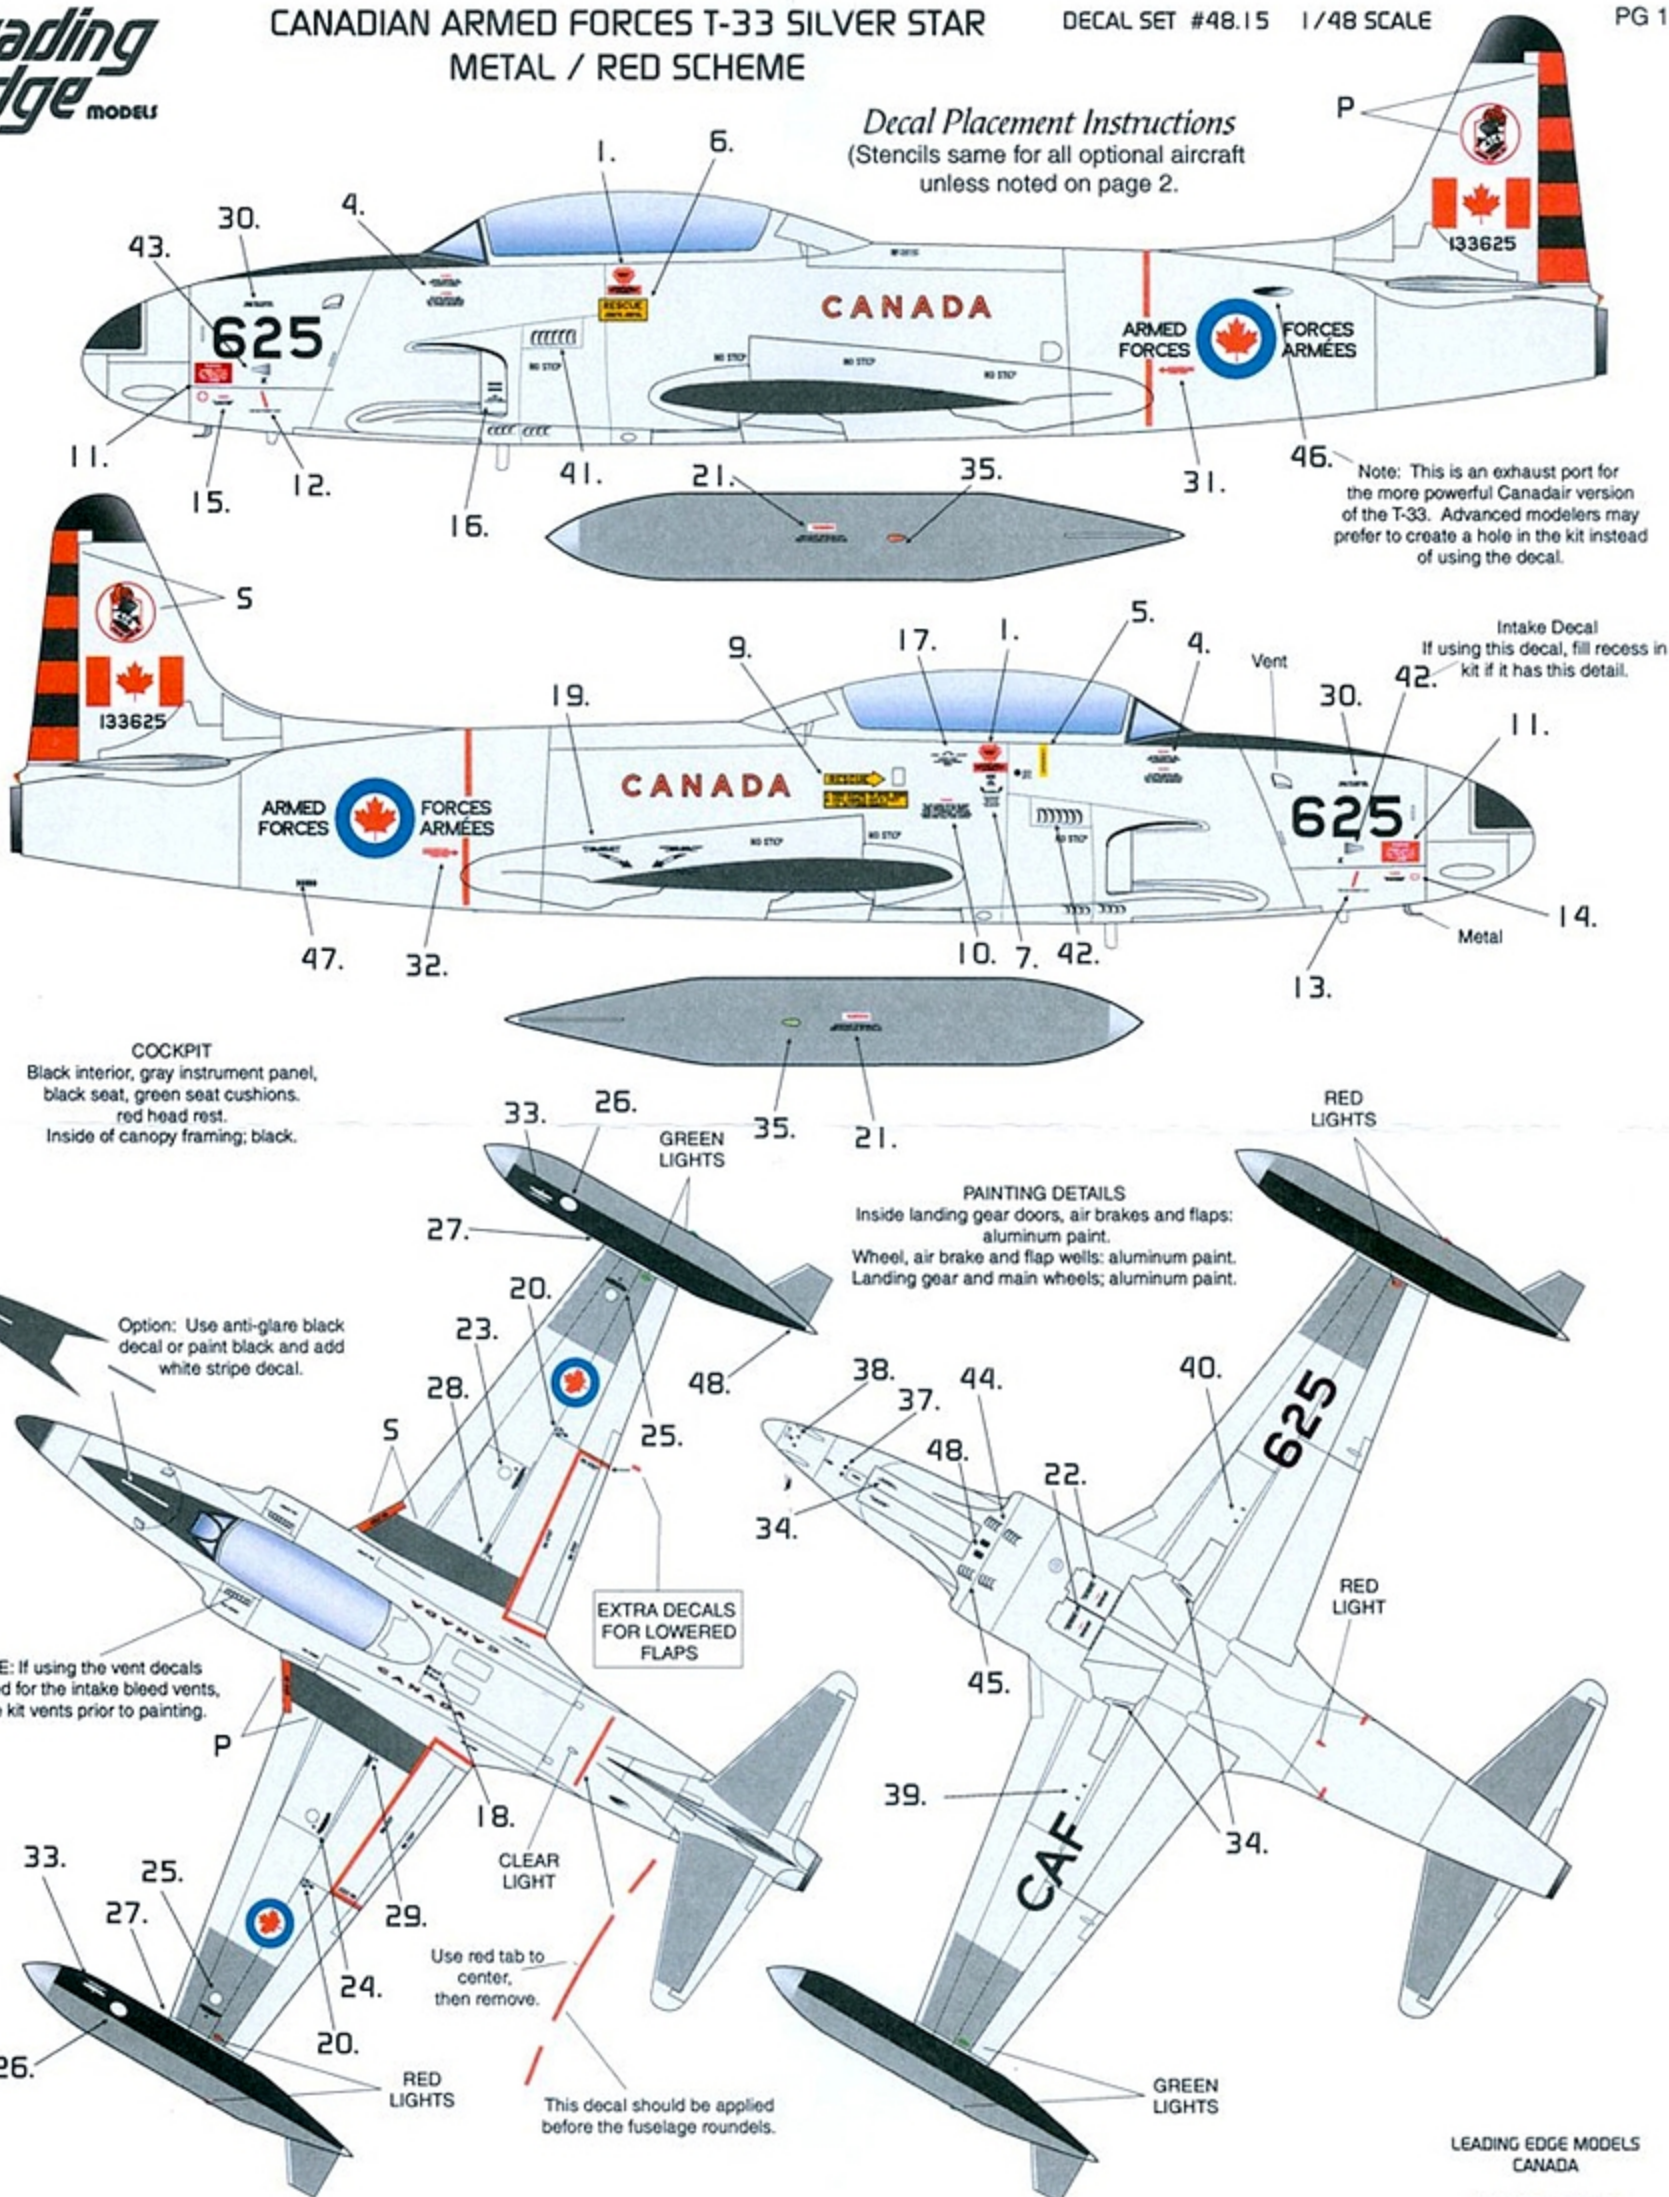

Optional markings for
Cold Lake base flight
& AETE test aircraft.

-  BRIGHT RED
-  NATURAL POLISHED METAL
-  MATT BLACK

CT-133 SILVER STAR
414 SQUADRON "BLACK KNIGHTS"

Decal Placement Instructions
(Stencils same for all optional aircraft unless noted on page 2.)

Note: This is an exhaust port for the more powerful Canadair version of the T-33. Advanced modelers may prefer to create a hole in the kit instead of using the decal.

Intake Decal
If using this decal, fill recess in kit if it has this detail.

COCKPIT
Black interior, gray instrument panel, black seat, green seat cushions, red head rest.
Inside of canopy framing; black.

PAINTING DETAILS
Inside landing gear doors, air brakes and flaps: aluminum paint.
Wheel, air brake and flap wells: aluminum paint.
Landing gear and main wheels: aluminum paint.

Option: Use anti-glare black decal or paint black and add white stripe decal.

NOTE: If using the vent decals provided for the intake bleed vents, fill the kit vents prior to painting.

EXTRA DECALS FOR LOWERED FLAPS

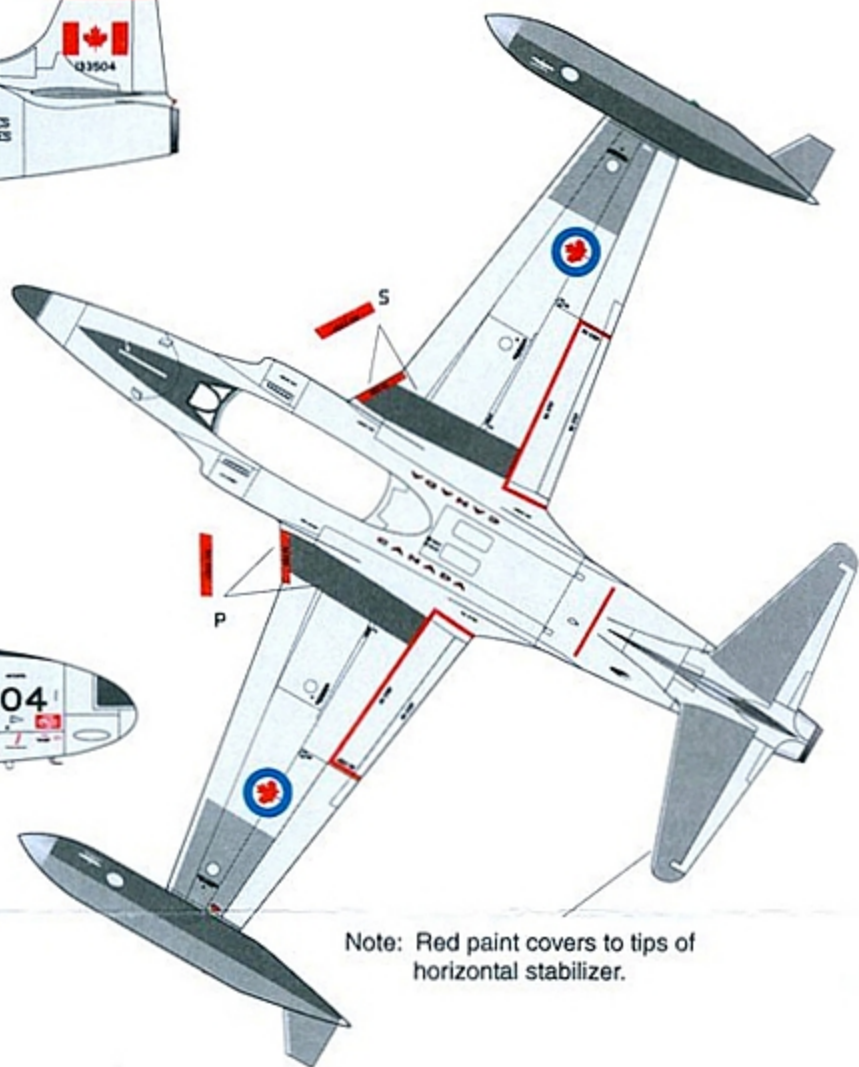

Use red tab to center, then remove.

This decal should be applied before the fuselage rounds.

CANADIAN ARMED FORCES T-33 SILVER STAR
METAL / RED SCHEME

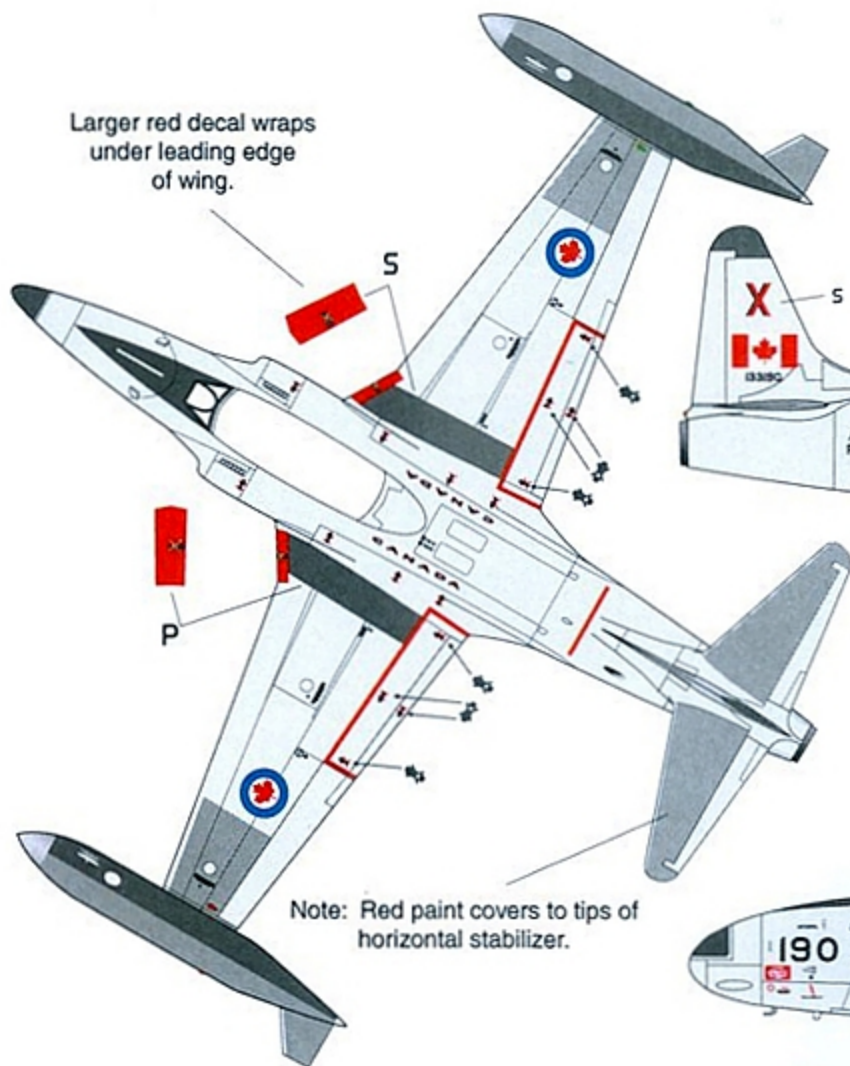

COLD LAKE BASE FLIGHT
CFB COLD LAKE, ALBERTA
