

1/72 Complete scale casting kit limit series

No. 72 347

LACAB G.R. 8 Doryphore

of Belgian unknown planes. A little Belgian factory - Les Ateliers de Construction Aéronautiques Belge in Haren - LACAB. They made training biplane LACAB T.7 No. 72 366. a few years ago. The project started in 1934. The biplane was mixed construction. Fuselage was on metal tube and mostly coat was plywood. G.R.8 was powered radial engine Gnome Rhone 14 Kdrs 780HP.

Ammunition was prepared 3x 7,8 machine gun, 800 kg bombs and even one torpedo. The prototype was finished in 1936. G.R.8 was tested in Aviation Militaire. Prototype remained in Evere by Bruxelles. The plane was ended by the attack of German aircraft in May 1940. Alleged sale to Spain is special story.

Data		
Rozpětí / span	18	m
Délka / length	13,45	m
Výška / height	4,15	m
Nosná plocha / wing area	65	m ²
Prázdňá váha / weight empty	3.400	kg
Váha start. / full weight	5.200	kg
Max. Rychlost / speed max	360	km/h
Dostup / ceiling	8.800	m
Dolet / range	1.000	km

Colors AGAMA/ Humbrol

AL	Hliník		zelená	
	Aluminum 46M/56	G	Green	A40M /151
	Barva výfuků		Šedá
