Skynights F3D Pt. II

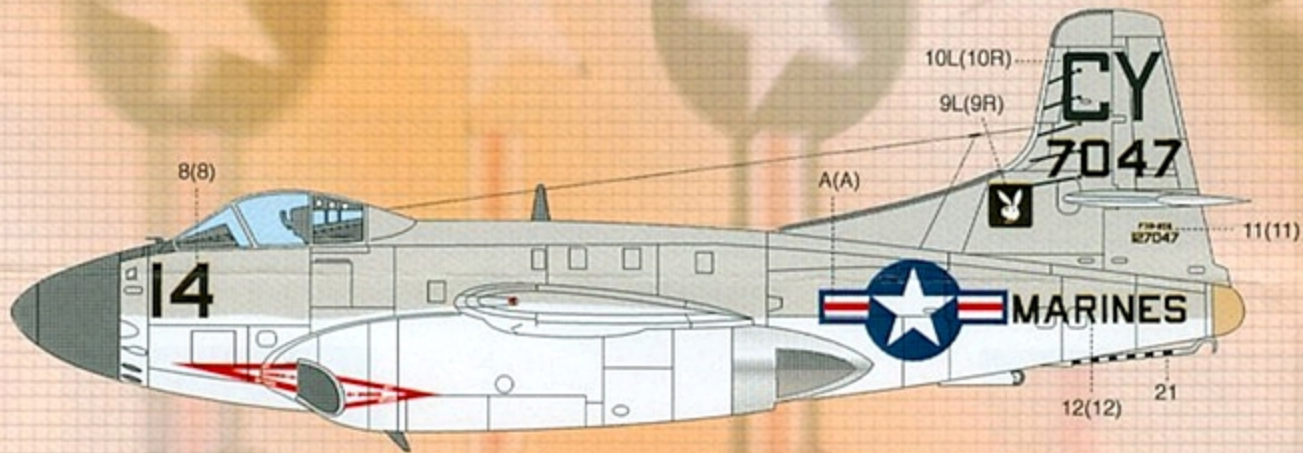

Suggested Kit: Czech Model F3D Skynight

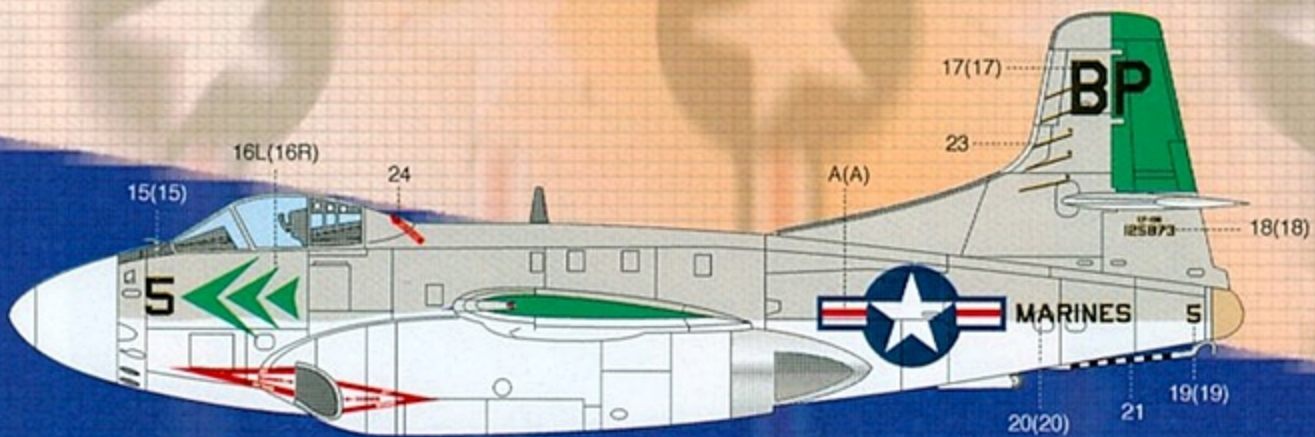

Skynights F3D Pt.II

Aircraft 1 - F3D-2T2 BuNo. 127069, Fleet All Weather Training Unit Atlantic (FAWTULANT) Overall Glossy Sea Blue, Black radome. Yellow rudder cap and wingtips. Sea Blue leading edges to wings & tail.

Aircraft 2 - EF-10B, BuNo. 127047, VMCJ-2, mid-fifties. Light Gull Gray uppersurfaces, Gloss White undersurfaces. Black radome. Natural Metal leading edges on all flying surfaces.

Aircraft 2 - F3D-2T2, BuNo. 125873, VMFT(N)-20, mid-fifties. Light Gull Gray uppersurfaces, Gloss White undersurfaces. White radome. Green rudder and wingtips. Natural Metal leading edges on all flying surfaces.

Note: Modeler must paint the arrestor hook White prior to decaling. The stencil set on the kit decal is very acceptable, that is why we have not reproduced them or the intake warning triangles.
