

Cessna 421C

List of parts:

1. Left fuselage half
2. Right fuselage half
3. Left horizontal stabiliser
4. Right horizontal stabiliser
5. Wing
- 6 Tail and vertical stabiliser
7. Cockpit floor
8. Instrument panel
9. Rear bulkhead
10. Master for windshield
11. Seats (7 pcs)
12. Seating bench (depending on configuration)
13. Nose landing gear and wheel
14. Main wheel (2 pcs)
15. Main landing gear leg (2 pcs)
16. Main landing gear actuators (left and right)
17. Left front bulkhead
18. Right front bulkhead
19. Main landing gear cover (left and right)
20. Nose landing gear cover (2 pcs)
21. Main landing gear actuator (2 pcs)
22. Nose landing gear actuator
23. Under-fuselage antenna
24. Control wheel (2 pcs)
25. Antenna (3 pcs)
26. Pitot tube (2 pcs)
27. Underbelly position light
28. propeler (2 pcs)

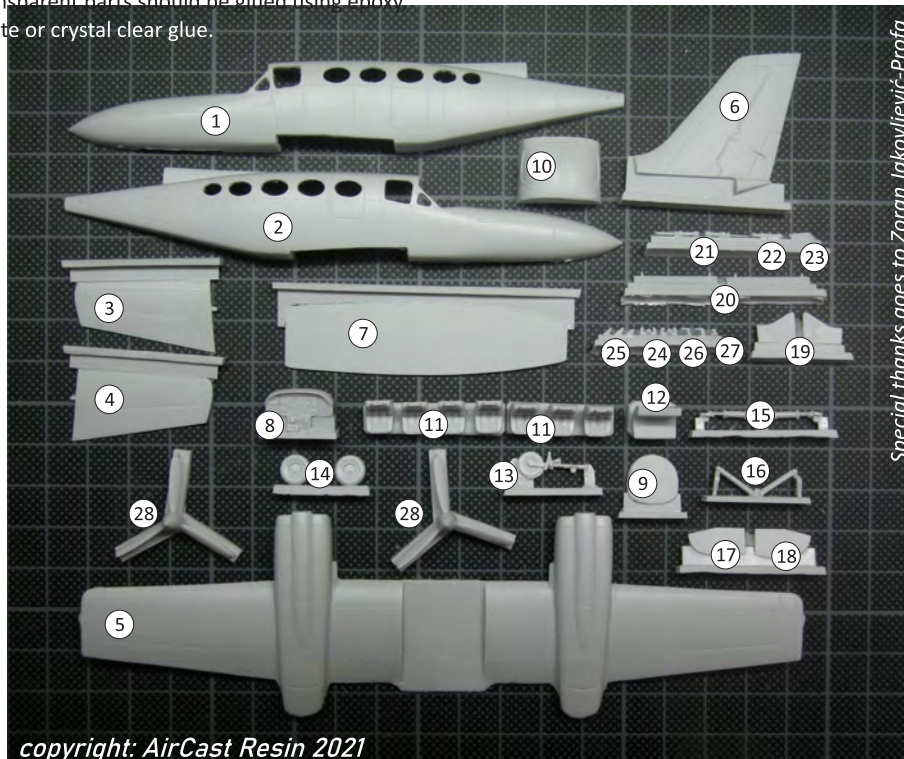

General instructions:

Resin parts should be cleaned of flash, thoroughly cleaned using enamel or lacquer solvent and washed in detergent solution. For attaching resin parts use solely cyano-acrylate glue.

Transparent parts should be glued using epoxy white or crystal clear glue.

Notes:

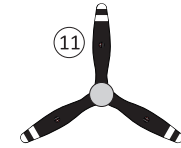

- all gear legs are enforced with wire
- Model should be nose-balanced, so please add 6-8g of weight to avoid tail-sitting.
- small parts (additional antennas, position lights) should be scratchbuilt.

Decal placement and painting tips

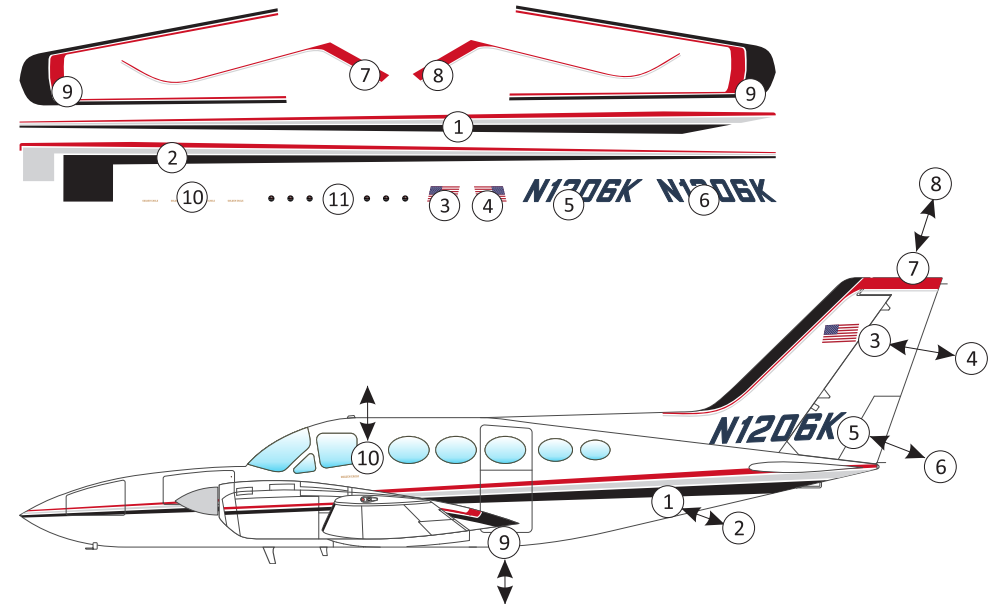

1. Fuselage stripe - left
2. Fuselage stripe - right
3. Flag - left
4. Flag - right
5. Registration - left
6. Registration - right
7. Tailfin stripe - left
8. Tailfin stripe - right
9. Engine stripe - both engines
10. Logo under the window (both sides + spares)
11. Propeller logo (each blade + spares)

- Propeller painting and marking:
- front and back painted matt black
 - propeller tips with two white stripes
 - spinner polished aluminium

Notes:

- decals are home-made, so they require a bit of attention when cutting and applying.
- Trimming is required at the rear end of the fuselage stripe 2, bottom of the fuselage. Suggestion is to place left stripe 1, trim nose end, and then apply right stripe 2, trimming nose and bottom ends.
- Paint anti-frost surface of the leading edge of the wings, horizontal and vertical stabilisers matt black, using external references.
- For painting and detailing please use references available on internet
