Note:
There are no model paint
instructions for this book.

The closest we could find were paler matches for Ps29103. This colour is slightly lighter than 15902 but is very close.

Grimes A' Mighty

*This jet was painted to commemorate
the last ever reunion of the 352nd
Fighter Group.*

Cripes A' Mighty was the famous P-51 that was flown by Maj. George Preddy in WWII. Maj. Preddy ended up being the top Mustang Ace of the war with 26.83 confirmed kills.

Maj. Preddy was killed on Christmas day in 1944 while chasing a FW-190 at tree-top level for his third kill of the day. Ironically he was hit by friendly ground fire.

The 149th Fighter Squadron of the 192nd Fighter Wing of the VA ANG owes its lineage to the fine airmen of the "Bluenosed Bastards of Bodney."

TwoBibles' goal is to provide you with the most thoroughly researched details that money can buy. We go beyond using traditional reference resources and many times involve our entire editorial team and make use of our top-level experts.

Being modelers ourselves, we understand that there is no substitute for this painstaking research and we are proud to offer, what we feel, are the best decals on the market. If you have any subject matter that you feel should be the next Twobobs creation, let us know. We'll be happy to listen to any and all customer input.
