Fifty years ago the 57th Wing became a permanent establishment while stationed at Elmendorf AFB, Alaska. Originally, the Department of the Air Force established the 57th Fighter Wing on 15 March 1948 and organized it one month later, on 20 April. Although active from April, the temporary wing was part of an Air Force service test of what was called the "wing-base" plan. In 1948, the Air Force discontinued all of the temporary units and establishments and replaced them with new, permanent units and establishments with the same numerical and functional designations. Thus, on 20 September 1948, the Air Force activated the 57th Fighter Wing.

The mission of the 57th Wing is to provide advanced aerospace training to worldwide combat air forces and showcase aerospace power to the world.

To accomplish its diverse mission, the Wing oversees the dynamic and challenging missions for all flying operations at Nellis AFB, including USAF Weapons School, "Red Flag", "Air Warrior" training and the Air Warfare Center's test and evaluation activities.

The wing manages flying operations and aircraft maintenance at Nellis AFB through six assigned units: the 57th Operations Group, 57th Logistics Group, USAF Weapons School, USAF Air Ground Operations School, USAF Air Demonstration Squadron (Thunderbirds) and 57th Wing Director of Tactics.

Twobobs' goal is to provide you with the most thoroughly researched decals that money can buy. We go beyond using traditional reference resources and many times speak with the actual aircrews and maintainers of our subject matter. Being modelers ourselves, we understand that there is no substitute for this painstaking research and we are proud to offer, what we feel, are the best decals on the market. If you have any subject matter that you feel should be the next Twobobs creation, let us know. We'll be happy to listen to any and all customer input.
