Breathing Oxygen
 Two horizontal filled rectangles with notation of either "gas" or "liquid" for gaseous oxygen to include charging pressures in English and Metric units. For liquid oxygen include capacity in liters.

Slings or Hoisting Points
 Color filled hook on a horizontal line.

Grounding or Earth Receptacle
 A filled inverted "T" with two parallel bars underneath which diminish in size.

Inspection of Battery
 A color filled electric flash sign.

Engine Lubricating Oil
 Filled square with notation of NATO code number for engine lubricating oil.

Nitrogen Services
 Color filled square with a quarter arc removed from each corner. With type of gas used and pressure in English and Metric units.

Mooring or Picketing
 Color filled anchor.

Fueling
 Color filled four point star with notation of NATO code number for fuel.

Jacking Point
 Color filled square with two slanting legs on bottom side.

Hydraulic Fluid
 Color filled circle with notation of NATO code number for hydraulic fluid.

Air Condition
 Four dot pattern.

External Electrical Connections
 Color filled "E" with lower limb shortened stating service and voltage details.

Source data derived from USAF Technical Order TO 1-1-4, dated 17 July 1998.

Twoobobs' goal is to provide you with the most thoroughly researched decals that money can buy. We go beyond using traditional reference resources and many times speak with the actual aircrews and maintainers of our subject matter. Being modelers ourselves, we understand that there is no substitute for this painstaking research and we are proud to offer, what we feel, are the best decals on the market. If you have any subject matter that you feel should be the next Twoobobs creation, let us know. We'll be happy to listen to any and all customer input.
