

HORIZON CONVERSIONS

MADE IN CANADA

1/32 SCALE

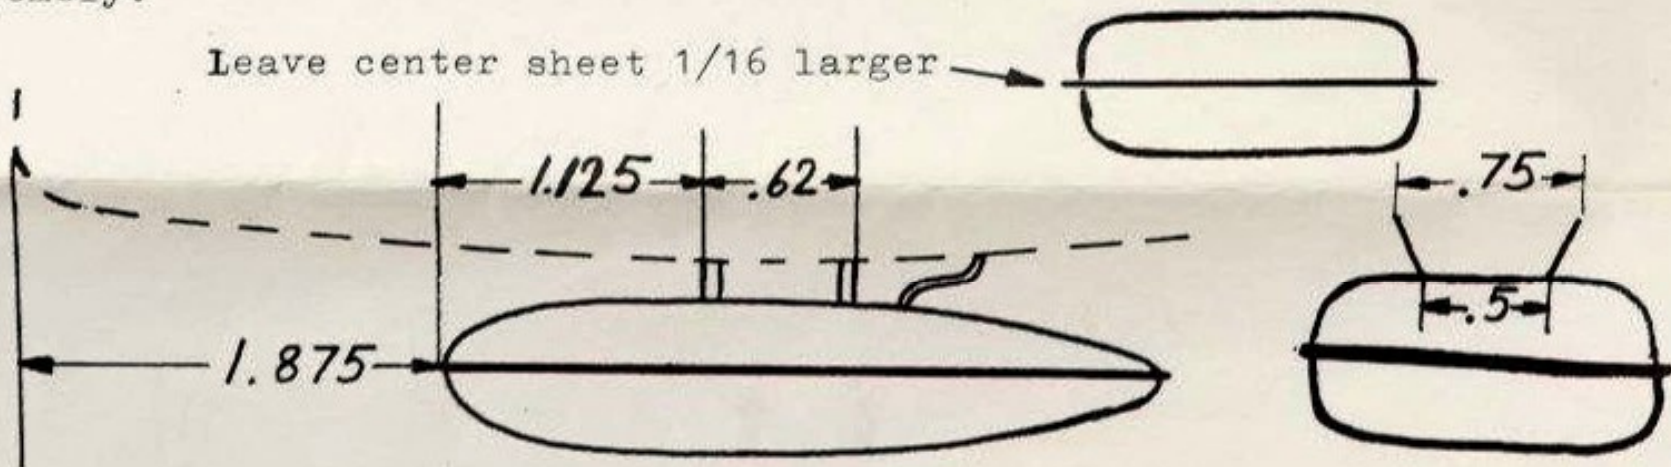

KIT # 0003

200 GAL. FERRY TANK FOR P-47 THUNDERBOLT

Cut tank from sheet using an exacto saw. HORIZON CONVERSIONS are about 1/8 inch higher, to give you plenty of room to work with. After cutting and sanding both halves, put one half on spare sheet of plastic and outline it with a pencil, cut with scissors but leave it about 1/16 inch larger and glue it between the two halves to get the seam around center of the tank. tank should be .625 inches high after assembly.

Leave center sheet 1/16 larger

Tank shackles are .31 inches long.
Tank can be attached to P-47D wing pylons as well.
