■ Correct Method for Applying Decals  
 ① Clean the model surface with a wet cloth.  
 ② Cut out each decal design from the decal sheet, and dip it in warm water for 30 seconds.  
 ③ Use a fingertip to check if the decal is loose from the backing paper. If so, place it in the proper position on the model, and slide it off the backing paper onto the model.  
 ④ Move the decal to the exact position with a wet fingertip, and squeeze out any excess water at all bubbles under the decal with a soft cotton swab.  
 ⑤ When the decal dries by one wet spot to partly wipe away any bubbles will disappear.

■ Das Korrekte Aufbringen der Abziehbilder  
 ① Überprüfen Sie Modell- und Lacktemperatur.  
 ② Schneiden Sie jedes Abziehbild von der Abziehbildkarte und tauchen Sie es in warmes Wasser ein.  
 ③ Überprüfen Sie jedes Abziehbild, ob es sich von der Rückseite löst. Wenn ja, setzen Sie es an die richtige Position auf das Modell, und schieben Sie es von der Rückseite auf das Modell.  
 ④ Bewegen Sie das Abziehbild an die exakte Position mit einem feuchten Finger, und drücken Sie überschüssiges Wasser und alle Blasen unter dem Abziehbild mit einem weichen Baumwolltupfer ab.  
 ⑤ Wenn das Abziehbild durch einen feuchten Fleck zum Teil abgetrocknet ist, verschwinden alle Blasen.

■ Modo esatto per applicare le decalcomanie  
 ① Pulire la superficie del modello con un panno umido.  
 ② Ritagliare ciascun disegno del foglio decalcomanico e immergerlo in acqua calda per 30 secondi.  
 ③ Controllare con un dito se il disegno si stacca dalla base di carta. Se è così, spostare nella giusta posizione sul modello, e scivolare via dalla carta sul modello.  
 ④ Muovere il disegno nella giusta posizione con un dito umido, e strizzare come foglio di cotone o cotone soffici per togliere l'acqua in eccesso e per togliere tutte le bolle d'aria sotto la decalcomania mediante un panno di cotone soffici.  
 ⑤ Quando la decalcomania sarà asciutta, togliere con un panno umido l'acqua in eccesso e le bolle d'aria.

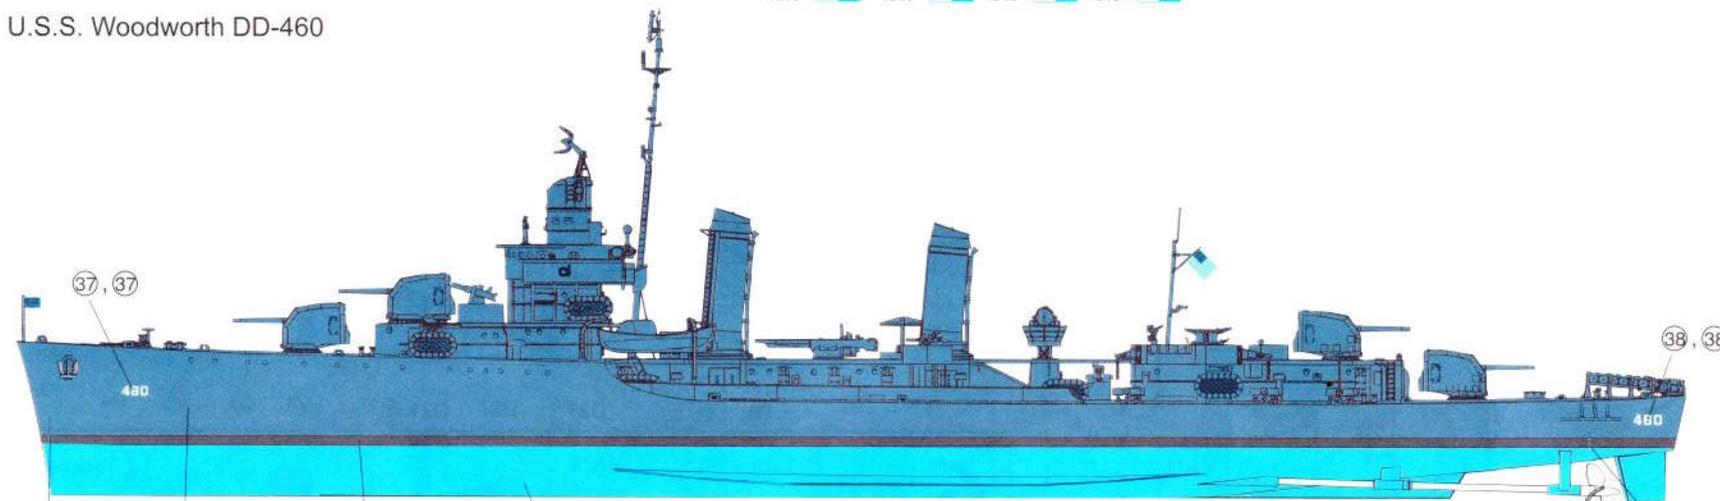

■ Comment appliquer les decalcomanies correctement  
 ① Nettoyer la surface du modèle avec un chiffon humide.  
 ② Découper chaque decalcomanie de la feuille de papier et la laisser tremper dans l'eau chaude pendant vingt secondes.  
 ③ Vérifier avec le bout du doigt si le dessin se détache de son support. Si oui, le positionner à l'endroit précis sur le modèle et le faire glisser de son support.  
 ④ Déplacer le dessin dans la juste position avec un doigt humide, et essorer comme feuille de coton ou coton soffici de toute l'eau en excès sous la decalcomanie avec un chiffon soffici.  
 ⑤ Quand les decalcomanies sont sèches, éliminer l'excès d'eau et les bulles d'air avec un chiffon soffici.
