Skynights F3D Pt. I

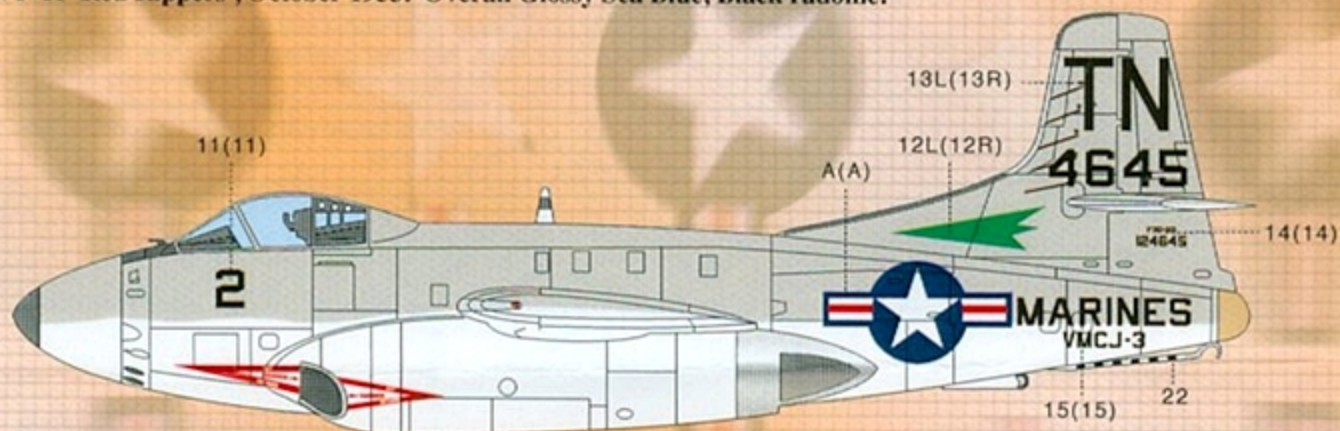

Suggested Kit: Czech Model F3D Skynight

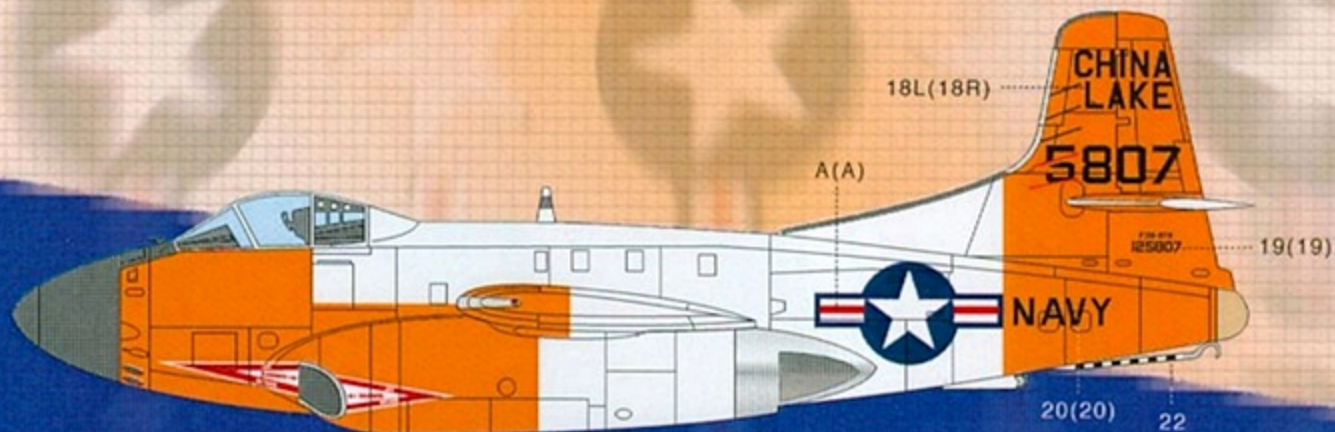

Skynights F3D Pt.I

Aircraft 1 - F3D-2 (Actual BuNo. unconfirmed, provisional BuNo. 127033 provided) of VF-11 'Red Rippers', October 1953. Overall Glossy Sea Blue, Black radome.

Aircraft 2 - F3D-2Q, BuNo. 124645, VMCJ-3, mid-fifties. Light Gull Gray uppersurfaces, Gloss White undersurfaces. Black radome tip. Natural Metal leading edges on all flying surfaces.

Aircraft 3 - F3D-2T2, BuNo. 125807, China Lake. White and dayglow Orange-Red overall, Black radome. Natural Metal leading edges on all flying surfaces.

Note: Modeler must paint the arrestor hook White prior to decaling. The stencil set on the kit decal is very acceptable, that is why we have not reproduced them or the intake warning triangles.
