"Yellow 2" Bf 109 G-10/U4 W.Nr. Unknown Pilot Unknown KG(J) 27 May 1945 Kaufbeuren Allgäu, Germany

This G-10 fuselage was found on a scrap heap at the airfield Kaufbeuren Germany in May 1945. A color photo and profile was published in *Flugzeug Magazine* June/July 1987 issue. A computer enhancement determined the cowling to be type 110 with the port side incorporating the vertical panel line (see *EagleCals #16*). This aircraft has characteristics of the 150xxx -158xxx werknummer range. Since this known photo doesn't show all of the machine, along with the tail wheel strut, there is some speculation involved; however, the fuselage colors are vividly shown.

Colors: Undersurfaces; 76 Light Blue. Uppersurfaces; 75 Gray-Violet/74 Gray-Green.

Spinner: Black/White spiral (speculative) Prop blades: 70 Black-Green.

Wide Green/White checkered fuselage band assigned to KG (J) 27. All antennas intact (speculative).

National Markings: Fuselage; 900 mm White outline crosses. 300 mm Black Hakenkreuz with White outline

"White 44" Bf 109 G-10 W. Nr. Unknown (possibly 130342) II./NJG 11 May 1945 Fassburg, Germany

This night attack aircraft was found with "White 43" and is very similar to it. Converted in October 1944 from 109 G-6 airframes for low-level night attack roles. Other specialized units used this overall Light Blue color scheme for higher altitude cover protection duties. This aircraft had the narrow wheels (660 mm X 160 mm) and small upper wing bulges. Additionally, a small sliding window was added to the port side of the canopy; exhaust shields were extended further down both sides to suppress exhaust glare. A small half-moon external rear view mirror attached to the top of the windscreen. ETC rack for carrying external stores. Pilot unknown.

Colors: Overall scheme; 76 Light Blue, Black wing root area on both sides. Spinner: Black with White spiral, Black portion crudely overpainted with probably 75 Gray-Violet or RLM 02 to reduce contrast. Prop blades 70 Black-Green. All antennas intact.

National Markings: Fuselage: 900 mm White outline crosses; 300 mm Black Hakenkreuz with White outline

Wings: Upper 1000 mm White outline crosses, lower 900 mm Black outline crosses (provisional).

Stencilling: Probably factory standard, possibly much is overpainted.
