NOTE ON T-38C EJECTION SEATS

THE NORTHROP EJECTION SEATS IN THE USAF T-38 FLEET WERE ENTIRELY REPLACED WITH NEW MARTIN-BAKER US 16T SEATS BETWEEN 2009-2014. THE US 16T IS A LATEST-GENERATION EJECTION SEAT BASED ON THE MK.16 PLATFORM.

FOR EACH OPTION ON THIS DECAL SHEET, WE ADDED A NOTE DESCRIBING WHICH EJECTION SEAT SHOULD BE USED FOR THE TIME PERIOD DEPICTED BY THE MARKINGS. AS A GENERAL RULE, ANY USAF T-38C AFTER 2014 SHOULD BE EQUIPPED WITH THE NEW SEAT.

WE BELIEVE THE WOLFPACK T-38C KIT (NOT YET RELEASED AS OF MAY 2015) WILL PROVIDE THE US 16T SEATS. THE MARTIN-BAKER KR 16K SEATS USED IN THE KAI T-50 TRAINER ARE A VERY CLOSE MATCH, SO YOU CAN USE THE RESIN T-50 SEATS FROM WOLFPACK.
