Apply fin flashes to inside of vertical stabilizers, all versions

Note:

These aircraft retained the exterior aftquarter petals or "Turkey Feathers". For true accuracy, these exterior petals should be represented on your model.

Very special thanks to Jim Rotramel for his references and assistance in the creation of this decal sheet.

Thanks Jim!

Tweboob's goal is to provide you with the most thoroughly researched decals that money can buy. We go beyond using traditional reference resources and many times speak with the actual crews and maintainers of our subject matter. Being modelers ourselves, we understand that there is no substitute for this painstaking research and we are proud to offer, what we feel, are the best decals on the market. If you have any subject matter that you feel should be the next Tweboob's creation, let us know. We'll be happy to listen to any and all customer input.
