### Note to Modellers:

When applying Decals 3, 4, 30, & 31 make sure that before wetting them, you slice the clear part between the Black and Red to facilitate positioning. Little squares of decals are provided to trim any tears that may develop.

Also, in order to allow the use of any P-40 kit available, we have provided the fin flashes without the front cut. Please measure and cut prior to wetting your decal. Sorry for any inconvenience this may cause you.
